

CONTENTS

Preface		xi
Chapter 1	Sorghum as Biogas Crop <i>Anja Hartmann, Karen Zeise and Maendy Fritz</i>	1
Chapter 2	Enzyme Modified Grain by-Product Reinforced Polypropylene Composites <i>Abdullah Al Mamun, Andrzej K. Bledzki and Jürgen Volk</i>	11
Chapter 3	Biomass as Combustion Fuel – Experiences and Findings <i>Grete Bach, Stefanie Bachmann, Daniel Kolb, Peter Kosel and Wendy Franke</i>	21
Chapter 4	Efficiency of Hemp Essentials Oil Depending on Sowing Density and Time of Inflorescence Harvest <i>H. Burczyk, R. Kaniewski, W. Konczewicz, N. Kryszak and J. Turowski</i>	31
Chapter 5	IWN-11 the New Biostimulator for Increasing Crops Resistance to Drought Stress <i>Krzysztof Heller, Małgorzata Byczyńska and Zenon Woźnica</i>	41
Chapter 6	Yellow Natural Dyestuffs and their Light Fastness Properties and UV Protection on Natural Fabrics <i>Katarzyna Schmidt-Przewoźna and Jakub Kowalinski</i>	49
Chapter 7	Multipurpose White Mulberry (<i>Morus Alba</i> L.) <i>Małgorzata Lochyńska and Grzegorz Oleszak</i>	59
Chapter 8	Agricultural Residues as a Renewable Source of Bio-Energy with Special Focus on Cereal Straws <i>Narra S., C. Glaser, H.-J. Gusovius, C. Stollberg and P. Ay</i>	67

Chapter 9	Prevention of Disposal of Greenhouse Gas from Digested Residues by Optimal Use of the Nitrogen Fertilizer Potential <i>Ute Bauermeister</i>	81
Chapter 10	<i>Vetiveria Zizanioides</i> Grass a Useful Tool <i>G. Bach and R. Hommel</i>	89
Chapter 11	State of the Art of the Renewable Resources in Poland <i>R. Kozłowski, K. Seidler-Lozykowska, M. Mackiewicz-Talarczyk, P. Baraniecki, J. Mankowski, Cz. Ogurkowski and I. Pniewska</i>	97
Chapter 12	Energy Efficiency of Four Crop Species <i>Jerzy Pudelko, Jerzy Mankowski and Jacek Kolodziej</i>	123
Chapter 13	Enzymatic Biomass Hydrolysis <i>Viktor Antonov, Josef Marousek, Jan Marek, Stanislav Kuzel and Tomas Rosenberg</i>	131
Chapter 14	Sustainable Logistics Centers <i>Hartmut Zadek and Robert Schulz</i>	141
Chapter 15	Relation between the Cell-Free DNA Content and the Lipid Peroxidation in the Blood Plasma of Mice under Damaging Action <i>Lyudmila N. Shishkina, Mikhail A. Klimovich, Mikhail V. Kozlov and Margarita A. Smotryaeva</i>	147
Chapter 16	Mechanism of Stable Radical Generation in Lignin under the Action of Nitrogen Dioxide <i>E.Ya.Davydov, I.S. Gaponova, S.M. Lomakin, G.B. Pariiskii, T.V. Pokholok and G.E. Zaikov</i>	157
Chapter 17	Spray Formation of Alternative Diesel Fuels under Engine-Like Conditions <i>Dennis Backofen, Michael Könnig, Helmut Tschöke and Jürgen Schmidt</i>	167
Chapter 18	DNA Fingerprinting and Characterisation of Genetic Variation of Different Clones of <i>Urtica Dioica</i> L. via RAPD and RAPD-Derived SCAR Markers <i>Bettina Biskupek-Korell, Sabrina Becker, Jasmin Dufrenne, Patricia Rauscher and Carolin Schneider</i>	181
Chapter 19	IFT Performance of MES Surfactant from Palm Olein for EOR Application <i>Erliza Hambali, Mira Rivai, Putu Suarsana, Sugiharjo, Edi Zulchaidir and Hermansyah Handoko</i>	191
Chapter 20	The Development Process of <i>Jatropha</i> Methyl Ester Sulfonic Acid (MESA) to Enhance Oil Recovery <i>Siti Mujdalipah, Mira Rivai, Erliza Hambali, Ani Suryani, Hermansyah Handoko and Edi Zulchaidir</i>	201

Chapter 21	Rapeseed Proteins – Recent Results on Extraction and Application <i>Frank Pudel</i>	209
Chapter 22	PCR-Based Detection of Different Endophytic Bacteria Appearing in <i>In Vitro</i> Cultures of Different Clones of <i>Urtica Dioica</i> L. Using Specific PCR-Primers, Derived from Bacterial 16S rDNA Sequences <i>Carolin Schneider, Sven Wartenberg, Jasmin Dufrenne and Bettina Biskupek-Korell</i>	223
Chapter 23	Survey of <i>Jatropha Curcas</i> Energy Potential for an Efficient Production of Biodiesel as Renewable Energy <i>Sékou Traoré, Amadou Diarra, Macki Traoré and Sékou Magassouba</i>	229
Chapter 24	Genetic Resources of <i>Cannabis Sativa</i> L. in the Collection of the Gene Bank at Infandmp in Poznan <i>Magdalena Chudy and Grażyna Mańkowska</i>	241
Chapter 25	Production of Biodegradable Carrier Materials for the Immobilization of Microorganisms for the Treatment of Water <i>Alvaro E. Gonzalias, A. Werner and Hans-Joachim Radusch</i>	251
Chapter 26	The Changes in the Protein Profile in Response to Cadmium Stress in Flax (<i>Linum Usitatissimum</i> L.) <i>Milena Szalata, Szalata Marlena and Wielgus Karolina</i>	257
Chapter 27	Regional Value Added of Bioenergy Activities A Material Flow Approach <i>Ruth Offermann, Thilo Seidenberger and Daniela Thrän</i>	263
Chapter 28	Simple Kinetics of Methane Formation Using Model Substrates: A Short Discussion <i>Robert Reinhard Pätz and Jan-Henryk Richter-Listewnik</i>	271
Chapter 29	Biosafety of Transgenic Potatoes Producing the Biopolymer Cyanophycin <i>Christoph Unger, Maja Hühns and Inge Broer</i>	279
Chapter 30	Provision Pathways for Biomethane <i>Diana Weigl, Katja Oehmichen, Michael Seiffert, Franziska Müller-Langer and Frank Scholwin</i>	283
Chapter 31	Flammability of Polymers Reinforced with Lignocelulosic Raw Materials <i>Maria Władyska-Przybylak and Krzysztof Bujnowicz</i>	293
Chapter 32	Feedstocks and (Bio) Technologies for Biorefineries <i>Joachim Venus</i>	299

Chapter 33	Non-Food Crops as a Feed Stock for Modern Bio-Based Industry <i>Maria Mackiewicz-Talarczyk, Krzysztof Heller, Przemysław Baraniecki and Irena Pniewska</i>	311
Chapter 34	Multiscale Metabolic Modeling of Cereals: An Integrated Systems Biology Approach for Research Biomass <i>Mohammad R. Hajirezaei, Mohammad R. Ghaffari, Björn H. Junker, Johannes Müller, Björn Usadel Michael Leps, Rainer Lemke and Falk Schreiber</i>	325
Chapter 35	Bioactive Substances from the Balsam Poplar <i>S. Ludewig, S. Gille, D. Orzessek and C. Griehl</i>	333
Chapter 36	The Potential of Microalgae to Produce Lipids for Biofuels <i>C. Griehl, H. Polhardt, D. Müller and S. Bieler</i>	347
Chapter 37	Biomaterials for Consumer Products <i>Peter Gerth, Thomas Bagus, Melanie Poschke and Johann Zimprich</i>	357
Chapter 38	Use of Rice Spelt as Component in Building Material <i>Stefanie Bachmann, Grete Bach and Rainer Loth</i>	363
Chapter 39	Criteria System of Sustainable Agriculture (CSSA - KSNL) <i>Gerhard Breitschuh, Hand Eckert, Ines Matthes and Jürgen Strümpfel, In cooperation with: Günter Bachmann, Landwirt Martin Herold, Thorsten Breitschuh and Ulrich Gernand</i>	371
Index		395
