
Contents

Preface	vii
Chapter I	Gametogenesis, Embryonic and Post-Embryonic Development of <i>Drosophila Melanogaster</i>, as a Model System for the Assessment of Radiation and Environmental Genotoxicity
	1
	<i>Dimitris J. Panagopoulos</i>
Chapter II	Significance of <i>Stellate</i> Genes in Spermatogenesis of <i>Drosophila Melanogaster</i>
	39
	<i>Ksenia S. Egorova, Oxana M. Olenkina and Ludmila V. Olenina</i>
Chapter III	The Evolutionarily Conserved Family of Nuclear Export Factor (NXF) in <i>Drosophila Melanogaster</i>
	63
	<i>E. Golubkova, L. Mamon, A. Nikulina, M. Merezko, V. Ginanova and M. Evgen'ev</i>
Chapter IV	Evolution of <i>Drosophila Melanogaster</i> Retroviruses: Old Genes and New Functions
	83
	<i>Lidia N. Nefedova and Alexander I. Kim</i>

Chapter V	Morphogenesis of <i>Drosophila Melanogaster</i> Macrochaetes: Cell Fate Determination for Bristle Organ	99
	<i>D. P. Furman and T. A. Bukharina</i>	
Chapter VI	Genetics of Sleep in <i>Drosophila Melanogaster</i>	141
	<i>J.M. Donlea, L Seugnet and P.J.Shaw</i>	
Index		157
