
Contents

VOLUME 1

Preface		ix
Chapter I	Correlations of Phylogenetic Relation with Host Range, Length of ORF or Genes, Organization of Conserved Sequences in the 3' Noncoding Region, and Viral Classification among the Members of the Genus <i>Flavivirus</i> <i>Goro Kuno, Gwong-Jen J. Chang and Li-Jung Chien</i>	1
Chapter II	Endogenous Retroviral Sequences Control the Transcription of Many Host Genes in Eukaryotes <i>Dmitri A. Ghilarov and Anton A. Buzdin</i>	35
Chapter III	A Secondary Structure Model for the 3'-Untranslated Region of Herpesvirus RNAs <i>Shih-Cheng Chen, Alexander P. Gultyaev, Cornelis W. A. Pleij and René C. L. Olsthoorn</i>	63
Chapter IV	Human T-Cell Leukemia Virus Type 1 (HTLV-1) and Antiviral Enzyme APOBEC3 <i>Takeo Ohsugi and Atsushi Koito</i>	83
Chapter V	Is there a Critical Mass that would likely trigger the Emergence of a Pandemic Avian Influenza Genotype? <i>Dany Shoham</i>	119
Chapter VI	Giant Viruses and their Genomes <i>William H. Wilson and Michael J. Allen</i>	139
Chapter VII	Replication, Transcription and Translation of Coronaviruses <i>Kazuya Shirato and Tetsuya Mizutani</i>	151

- Chapter VIII** A Mathematical Model for the Suppressive Effect of Subgenomic Hepatitis C Virus Replication in Huh-7 Cells in the Presence of Potential Individual Drugs
Elena L. Mishchenko, Kirill D. Bezmaternykh, Vitaly A. Likhoshvai, Vladimir A. Ivanisenko and Nikolay A. Kolchanov
- Chapter IX** Comparative Sequence Analysis of North American to South American Eastern Equine Encephalitis Virus Genomes
Peter L. Platteborze
- Chapter X** Lyssavirus Genome
Xianfu Wu, Ivan Kuzmin, Kelvin Tang and Charles E. Rupprecht
- Chapter XI** Dengue: Detection, Diagnosis and Control
Sérgio Oliveira De Paula, Ana Carolina Fialho Dias, Rui José Coelho, Júnior and Leandro Licursi de Oliveira
- Chapter XII** The Diagnosis of Dengue
Nagesh K. Tripathi, Ambuj Shrivastava and Asha M. Jana
- Chapter XIII** Dengue Envelope Domain III Protein: Properties, Production and Potential Applications in Dengue Diagnosis
Lik Chern Melvin Tan and Mah Lee Ng
- Chapter XIV** Dengue Virus Pathogenesis and Animal Modeling
Jennifer Garver and Eric M. Vela
- Chapter XV** Target Cells' Responses to Dengue Virus Infection: Implications for Pathogenesis
Luiza M. Higa, Thaís M. da Conceição, Tatiana El-Bacha, Iranaia A. Miranda and Andrea T. Da Poian

VOLUME 2

- Chapter XVI** General Considerations on Dengue
Agostino Pugliese and Donato Torre
- Chapter XVII** Molecular Diagnostics for Detecting Dengue
Catherine Putonti
- Chapter XVIII** Laboratory Diagnosis of Dengue Infection
Shamala Devi and Wang Seok Mui
- Chapter XIX** Dengue Infection
Viroj Wiwanitkit
- Chapter XX** Mathematical Models of Dengue Transmission and Control: A Survey
Asep K. Supriatna, Nuning Nuraini and Edy Soewono

161	Chapter XXI	Interspecies Transmission of Avian Influenza Virus (H3N2) to Dogs <i>Daesub Song, Bokyu Kang, Chulseung Lee and Bongkyun Park</i>	453
183	Chapter XXII	Conventional and Experimental Vaccines against Avian Influenza <i>Ami Patel, Gary Wong, Mickey Sahib and Gary P. Kobinger</i>	479
193	Chapter XXIII	Worldwide Preparedness to Prevent Eruption of Pandemic Flu and to Control Pandemic Spread after its Emergence <i>Yoav Arnsen and Yaron Bar-Dayana</i>	501
241	Chapter XXIV	Molecular Pathogenesis of Avian Influenza and Prospect of Therapy Using Small Interfering RNA <i>Jeanne Adiwinata Pawitan</i>	521
277	Chapter XXV	Avian Influenza: Intervention and Therapy <i>Hongxuan He and Kai Zhou</i>	533
293	Chapter XXVI	Infection Control for Avian Influenza (H5N1) in Healthcare Settings <i>Amucha Apisarnthanarak and Linda M. Mundy</i>	547
313	Chapter XXVII	U.S. and International Responses to the Global Spread of Avian Flu <i>Tiaji Salaam-Blyther and Emma Chanlett-Avery</i>	565
331	Chapter XXVIII	Avian Influenza: Agricultural Issues <i>Jim Monke</i>	607
	Chapter XXIX	Potential Risks of Vaccination against Avian Flu Epidemics <i>Shingo Iwami and Yasuhiro Takeuchi</i>	615
355	Chapter XXX	Preparation and Production of Prepandemic and Pandemic Influenza Vaccine: A Personal View <i>Akikazu Sakudo, Toyokazu Ishikawa and Kazuyoshi Ikuta</i>	643
	Index		649
