

CONTENTS

Preface		vii
Chapter 1	Reproductive Polymorphism of Leafrollers (Lepidoptera: Tortricidae) <i>A.F. Safonkin</i>	1
Chapter 2	Trail Pheromones and Sex Pheromones in Termites: Glandular Origin, Chemical Nature, and Potential use in Pest Management <i>David Sillam-Dussès</i>	39
Chapter 3	Potential Applications of Pheromones in Maize Pests Control <i>Renata Bažok and Jasminka Igrc Barčič</i>	93
Chapter 4	Syntheses of Pheromones Based on Commercially Available Starting Materials <i>E. A. Petrushkina and D. V. Khomishin</i>	125
Chapter 5	Changes in Pheromonal Reception and Activities of Excreted Pheromones with Maturation in Rodents <i>Makoto Kashiwayanagi</i>	165
Chapter 6	Pheromone Impact on Ants-based Algorithms <i>M. Bandieramonte, A. Di Stefano and G. Morana</i>	183
Chapter 7	Splendipherin: The Aquatic Male Sex Pheromone of the Magnificent Tree Frog <i>Litoria Splendida.</i>	
Chapter 8	A Brief Introduction to "Human Pheromones" <i>Tamsin K. Saxton and Jan Havlicek</i>	215
Chapter 9	New Challenges in the Study of Pheromones <i>Stefano Vaglio and Brunetto Chiarelli</i>	
Index		231
