

CONTENTS

Preface		vii
Chapter 1	Mathematical-Physical Modeling and Biomedical Optimization of Cell Electroporabilization: An Overview <i>Alessandro Porrello and Andrea Giansanti</i>	1
Chapter 2	Technical Aspects of the Electrochemotherapy <i>Ivan Dotsinsky, Nicolay Mudrov and Tsvetan Mudrov</i>	45
Chapter 3	Non-Thermal Irreversible Electroporation for Tissue Ablation <i>Paulo A. Garcia, Robert E. Neal II and Rafael V. Davalos</i>	63
Chapter 4	Mechanisms of Microorganism Inactivation by Pulsed Electric Fields <i>Gintautas Saulis</i>	85
Chapter 5	Electrochemical Processes Occuring During Cell Electromanipulation Procedures <i>Gintautas Saulis</i>	99
Chapter 6	Ultrastructural Modifications Induced by "Electroporation" <i>Agnese Molinari, Giuseppe Arancia and Enrico P. Spugnini</i>	115
Chapter 7	Electroporation in Bacteria <i>Maria Papagianni</i>	133
Chapter 8	Electroporation of Plant Cells <i>Alejandro Araya</i>	155
Chapter 9	Anti-Tumoral Effects of Pulsed Low Electric Field Enhanced Chemotherapy: Lessons from Experimental Malignant Tumors <i>Yona Keisari and Rafi Korenstein</i>	167
Chapter 10	Electrogenetherapy: Electrogene Transfer Using Low Field Strength <i>Feng Liu, Amber Frick, and Jue Wang</i>	205

Chapter 11	Electroporation – Treating Mice or Men? <i>Angela M. Bodles-Brakhop and Ruxandra Draghia-Akli</i>	217
Chapter 12	Electrochemotherapy in Veterinary Medicine, Part I: Solid Tumors <i>Enrico P. Spugnini, Gennaro Citro and Alfonso Baldi</i>	245
Chapter 13	Electrochemotherapy in Veterinary Medicine, Part II: Round Cell Tumors <i>Enrico P. Spugnini, Alfonso Baldi and Gennaro Citro</i>	257
Chapter 14	Histopathological Analysis of Canine and Feline Cancer Treated With Electrochemotherapy <i>Alfonso Baldi, Feliciano Baldi, Pasquale Mellone, Alfredo D'Avino, Gennaro Citro, and Enrico P. Spugnini</i>	265
Chapter 15	Clinical Application of Electrochemotherapy – An Adjunct to Surgery <i>Declan M. Soden, Mira Sadadcharam, Patrick Forde, and Gerald C. O'Sullivan</i>	273
Chapter 16	Electroporation in Chronic Lymphocytic Leukemia <i>Femke Van Bockstaele†, Valerie Pede, Bruno Verhasselt and Jan Philippé</i>	299
Chapter 17	Future Developments in Electroporation: Recombinant Clostridia as Viable and Targeted Tumour Therapeutics <i>Tam H Nguyen, Siyu Cao, Shu-Feng Zhou, and Ming Q Wei</i>	315
Index		329
