

CONTENTS

Preface		vii
Chapter 1	Mexican Threatened Cacti: Current Status and Strategies for Their Conservation <i>M. S. Santos-Díaz, E. Pérez-Molphe, R. Ramírez-Malagón, H. G. Núñez-Palenius and N. Ochoa-Alejo</i>	1
Chapter 2	Extinction of Cytheroidean Ostracodes (Crustacea) in Shallow-Water around Japan in Relation to Environmental Fluctuations since the Early Pleistocene <i>Hirokazu Ozawa</i>	61
Chapter 3	New Frontiers in Genome Resource Banking <i>Joseph Saragusty and Amir Arav</i>	111
Chapter 4	The Diversity of Cypriniforms throughout Bangladesh: Present Status and Conservation Challenges <i>Mostafa A. R. Hossain and Md. Abdul Wahab</i>	143
Chapter 5	Basic Ecological Information about the Threatened Ant, <i>Dinoponera lucida</i> Emery (Hymenoptera: Formicidae: Ponerinae), Aiming its Effective Long-Term Conservation <i>Amanda Vieira Peixoto, Sofia Campiolo and Jacques Hubert Charles Delabie</i>	183
Chapter 6	Exploring Microbial Diversity – Methods and Meaning <i>Lesley A. Ogilvie and Penny R. Hirsch</i>	215
Chapter 7	Spatial Assemblages of Tropical Intertidal Rocky Shore Communities in Ghana, West Africa <i>Emmanuel Lamptey, Ayaa Kojo Armah and Lloyd Cyril Allotey</i>	239
Chapter 8	Pollution and Diversity of Fish Parasites: Impact of Pollution on the Diversity of Fish Parasites in the Tisa River in Slovakia <i>Vladimira Hanzelová, Mikuláš Oros and Tomáš Scholz</i>	265

Chapter 9	Freshwater Endemics in Peril: A Case Study of Species <i>Echinogammarus Cari</i> (Amphipoda: Gammaridae) Threatened by Damming <i>Krešimir Žganec, Sanja Gottstein, Nina Jeran, Petra Đurić and Sandra Hudina</i>	297
Chapter 10	Threatened Temperate Plant Species: Contributions to Their Biogeography and Conservation in Mexico <i>Isolda Luna-Vega, Othón Alcántara Ayala and Raúl Contreras-Medina</i>	317
Chapter 11	Genetic Variability in <i>Caiman Latirostris</i> (Broad- Snouted Caiman) (Reptilia, Alligatoridae). Contributions to the Sustainable use of Populations Recovered from the Risk of Extinction <i>P.S. Amavet, J.C. Vilardi, R. Markariani, E. Rueda, A. Larriera and B.O. Saidman</i>	341
Chapter 12	The Aquatic Plant Species Diversity in Large River Systems <i>Dragana Vukov and Ružica Igić</i>	361
Chapter 13	Changes in Plant Species Diversity around the Copper Plant in Slovakia after Pollution Decline <i>Viera Banášová, Anna Lackovičová and Anna Guttová</i>	383
Chapter 14	Crustacean Zooplankton Biodiversity in Chilean Lakes: Two View Points for Study of Their Regulator Factors <i>Patricio De los Ríos, Luciano Parra and Marcela Vega</i>	405
Chapter 15	Restoration of Propagation and Genetic Breeding of a Critically Endangered Tree Species, <i>Abies beshanzuensis</i> <i>Shunliu Shao and Zhenfu Jin</i>	415
Index		433
