
Contents

Preface		vii
Chapter 1	The Cell Migration Signalosome <i>Gabriele Eden, Marco Archinti, Federico Furlan, Paul Fitzpatrick, Ronan Murphy and Bernard Degryse</i>	1
Chapter 2	Plant Growth-Promoting Bacteria: The Role of Chemotaxis in the Association <i>Azospirillum</i> <i>Brasilense</i> -Plant <i>Raúl O. Pedraza, María I. Mentel, Alicia L. Ragout, Ma. Luisa Xiquí, Dulce Ma. Segundo and B. E. Baca</i>	53
Chapter 3	CD46, Chemotaxis and MS- Are These Linked? <i>Siobhan Ni Choileain, Jillian Stephen, Belinda Weller and Anne L. Astier</i>	85
Chapter 4	Regulation of Chemotaxis by Heterotrimeric G Proteins <i>Maggie M. K. Lee and Yung H. Wong</i>	109
Chapter 5	Chemotaxis in the Model Organism <i>Chlamydomonas Reinhardtii</i> <i>E.G. Govorunova, O.O. Voytsekh, A.P. Filonova, M.A. Kutuzov, M. Mittag and O.A. Sineshchekov</i>	135

Chapter 6	Chemotaxis-Based Assay for the Biological Action of Silver Nanoparticles	157
	<i>E. M.Egorova, S. I. Beylina, N. B.Matveeva and L. S. Sosenkova</i>	
Chapter 7	Chlamydomonas as the Unicellular Model for Chemotaxis and Cellular Differentiation	189
	<i>E.V. Ermilova</i>	
Index		211
