
Content

Preface		vii
Abstract		ix
Chapter I	Introduction	1
Chapter II	Formation of Complexes with DNA	13
Chapter III	Spectral Properties of Actinomycins	29
Chapter IV	Cluster Sites in DNA	61
Chapter V	Single-Chain Structures and Actinomycins	73
Chapter VI	Spectroscopic Analysis of DNA in Films	85
Chapter VII	Fluorescence Correlation Spectroscopy of 7AAMD	99
Chapter VIII	The Problem of Delivery of Antibiotics to the Cellular DNA	111
Chapter IX	Action of Actinomycin on Cells	123
Chapter X	HP1 and Hoechst	139
Conclusion		145
References		147
Index		163
