Preface		vii
Part I. Autophagy and Immunity, Immune Disorders, Inflammation and Infection		1
Chapter I	The Diverse Roles of Autophagy in Immunity <i>Ian X. McLeod, Wei Jia and You-Wen He</i>	3
Chapter II	Cross-Presentation Induced by Autophagy towards Clinical Approaches <i>Young-Jun Ju, Jannatul Firdous, Hyo-Shin Yoon, Seung Hyun Han and Cheol-Heui Yun</i>	25
Chapter III	Autophagy as a Hallmark of Hemophagocytic Diseases <i>E. Marion Schneider, Myriam Lorenz and Paul Walther</i>	45
Chapter IV	Autophagy-Mediated Innate Defense Mechanism in Crypt Paneth Cells Responding to Impairment of Small Intestine Barrier after Total-Body Gamma-Photon Irradiation <i>Nikolai V. Gorbunov and Juliann G. Kiang</i>	61
Chapter V	Autophagy in Periodontal Disease <i>Hiromasa Tsuda and Yoshikazu Mikami</i>	85
Part II. Autophagy in Cancer Research and Cancer Therapy		97
Chapter VI	The Induction of Autophagy in Gliomas Treated by Temozolomide <i>Manabu Natsumeda, Hiroshi Aoki and Yukihiko Fujii</i>	99
Chapter VII	Autophagy Pathways and Drug Targets for Cancer Therapy <i>Huai-long Xu, Lei-lei Fu, Yu Yang, Bo Liu, Xu Zhao, Wen-wen Li and Jin-ku Bao</i>	111
Part III. Autophagy in Aging, Metabolic and Degenerative Disorders, and Responses to Toxic Agents and Injury		155

Chapter VIII	Autophagy in the Eye: A Double-Edged Sword	157
	<i>Goran Petrovski, Réka Albert, Kai Kaarniranta, Morten C. Moe, László Fésüs, András Berta and Dipak K. Das</i>	
Chapter IX	Regulation of Autophagy by Insulin/IGF-1 Signaling Pathways	181
	<i>Rodrigo Troncoso, César Vásquez-Trincado, Andrea del Campo, Damián Gatica, Pablo E. Morales, Felipe Paredes, Natalia Torrealba, Camila Lopez-Crisosto, Zully Pedrozo, Lorena García, Guillermo Díaz-Araya, Pavan K. Battiprolu, Andriy Nemchenko, Anwarul Ferdous, Thomas G. Gillette, Joseph A. Hill and Sergio Lavandero</i>	
Chapter X	Autophagy: Regulation and Role in Degenerative Diseases	195
	<i>Maylin Almonte-Becerril and Juan B. Kouri</i>	
Chapter XI	Altered Autophagy in Amyotrophic Lateral Sclerosis: Mechanisms and Therapeutic Opportunities?	211
	<i>Jean-Paul Decuyper, Kim A. Staats, Kirsten Welkenhuyzen, Ludwig Missiaen, Humbert De Smedt, Ludo Van Den Bosch, Jan B. Parys and Geert Bultynck</i>	
Chapter XII	Role of Autophagy in Parkinson's Disease	243
	<i>Giovanni Stefanoni, Gessica Sala, Lucio Tremolizzo, Laura Brighina and Carlo Ferrarese</i>	
Chapter XIII	Autophagy and Parkinson's Disease: A Love-Hate Relationship	265
	<i>José M. Fuentes, José M. Bravo-San Pedro, Rubén Gómez-Sánchez, Mireia Niso-Santano and Rosa A. González-Polo</i>	
Chapter XIV	Autophagy and Liver Ischemia-Reperfusion Injury	297
	<i>Raffaele Cursio, Pascal Colosetti, Patrick Auberger and Jean Guenheimer</i>	
Chapter XV	Implication of Autophagy in Response to Tubular Ageing and Injuries	329
	<i>Yoshitaka Isaka, Tomonori Kimura, Yoshitsugu Takabatake and Hiromi Rakugi</i>	
Chapter XVI	Autophagy Induced by Nanomaterials	341
	<i>Jasmine Jia'en Li, Olivia Scully, Karthik Subramanya Harve, Lin-Yue Lanry Yung and Boon-Huat Bay</i>	
Index		353
