

CONTENTS

Preface		vii
Chapter 1	Simple Epithelial Keratins K8 and K18: from Structural to Regulatory Protein <i>Anne-Marie Fortier and Monique Cadrin</i>	1
Chapter 2	Extraction, Processing and Applications of Wool Keratin <i>M. Zoccola, A. Aluigi, A. Patrucco and C. Tonin</i>	37
Chapter 3	Appearance and Distribution of Cytokeratins 13, 14 and 18 in the Lingual Epithelium during Morphogenesis of the Rat Tongue <i>Shin-ichi Iwasaki, Tomoichiro Asami and Hidekazu Aoyagi</i>	63
Chapter 4	Water Sorption of Human Keratinized Fibers: Effect of Wool Keratin Proteins and Peptides <i>Clara Barba, Meritxell Martí, Alisa Roddick- Lanzilotta, Albert M. Manich, Josep Carilla, Jose L. Parra and Luisa Coderch</i>	89
Chapter 5	Lipid Structures of Various Stratum Corneum Investigated by Electron Paramagnetic Resonance <i>Kouichi Nakagawa</i>	113
Chapter 6	Keratin Expression in the Human Pituitary Gland and its Application to Neoplastic Pituitary Cells <i>Hidetoshi Ikeda</i>	133

Chapter 7	Keratin Fibers from Chicken Feathers: Structure and Advances in Polymer Composites	149
	<i>Ana Laura Martínez-Hernández and Carlos Velasco-Santos</i>	
Index		213
