

CONTENTS

Preface		vii
Chapter 1	Population Dynamics of Endangered English Yew (<i>Taxus Baccata</i> L.): Implication for Conservation and Management <i>Amalesh Dhar, Harald Vacik, Herwig Ruprecht and Raphael Klumpp</i>	1
Chapter 2	Endangered Plants: A Comparison of Applied Methods for the Assessment of Extinction Risk for Rare Plants in Italy <i>Innangi Michele, Izzo Antonio and De Castro Olga</i>	17
Chapter 3	Effect of Climate Change and Deforestation in a Selection of Vertebrate Species and <i>Opuntia</i> in México <i>Patricia Illoldi-Rangel, Víctor Sánchez-Cordero and Miguel Linaje</i>	49
Chapter 4	Is Post-Dispersal Seed Predation a Problem for Spanish Black Pine (<i>Pinus Nigra</i> Arn. SSP <i>Salzmannii</i>) Natural Regeneration in Cuenca Mountains (Spain)? <i>Manuel Esteban Lucas-Borja</i>	65
Chapter 5	Mediterranean Horny Sponges: How to Drive a Neverending Story of Exploitation toward a Sustainable Management and Conservation <i>Roberto Pronzato, Fabio D. Ledda and Renata Manconi</i>	77
Chapter 6	Endangered Mexican Fish Under Special Protection: Diagnosis of Habitat Fragmentation, Protection, and Future – A Review <i>Ricardo Dzul-Caamal, Hugo F. Olivares-Rubio, Cynthia G. Medina-Segura and Armando Vega-López</i>	109
Chapter 7	Ecology, Structure and Conservation Status of the Southernmost Natural Populations of Yew <i>Taxus Baccata</i> L. (Taxaceae) in the Iberian Peninsula <i>Juan Carlos Linares</i>	131

Chapter 8	Europe's Threatened Species: The Case of Endangered Phengaris (<i>Maculinea</i>) Butterflies (Lepidoptera, Lycaenidae)	143
	<i>Paula Seixas Arnaldo, Maria da Conceição Rodrigues and Teresa Fidalgo Fonseca</i>	
Chapter 9	Plant Conservation Biology: The Case of <i>Helianthemum Polygonoides</i> , a Threatened Species from Southern Spain	155
	<i>M. A. Copete, J. M. Herranz, P. Ferrandis and E. Copete</i>
