

Contents

Preface		vii
Chapter I	Ligninolytic Peroxidases: Unique Properties and Biotechnological Potential <i>N. Pozdnyakova, K. Wlizo, K. Szalapata, A. Jarosz-Wilkolazka and O. Turkovskaya</i>	1
Chapter II	Plant Peroxidases: Functions and Regulation during Pathogenesis <i>A. V. Sorokan' and I. V. Maksimov</i>	55
Chapter III	Phospholipids and Peroxidases in Mitochondrial Apoptosis <i>Ekaterina A. Korobkova</i>	75
Chapter IV	Glutathione Peroxidases in Stem, Cancer, and Cancer Stem Cells <i>Shanchun Guo, Lily Yang, Guangdi Wang and Alexzander A. A. Asea</i>	101
Chapter V	Biochemical Responses of Aquatic Macrophytes to Two Abiotic Stresses <i>Takashi Asaeda, Tanjeena Zaman and Md H. Rashid</i>	125
Chapter VI	Plant Responses to Stresses: Role of Ascorbate Peroxidase in the Antioxidant Protection <i>I. M. Huseynova, D. R. Aliyeva and J. A. Aliyev</i>	141
Chapter VII	Route, Dose and Duration of Exposure to Cadmium-Relevance to Oxidative Stress Induction <i>Vesna Matović, Danijela Đukić-Čosić, Aleksandra Buha and Zorica Bulat</i>	159
