

CONTENTS

Preface		vii
Chapter 1	<i>Azolla-Anabaena Symbiosis: Physiological and Biochemical Responses to Increasing Levels of Salinity</i> <i>G. Abraham, Pragya Mishra and Vagish Mishra</i>	1
Chapter 2	<i>Microorganisms: The Tiny Creatures and their Innumerable Applications</i> <i>Anju Agrawal and Krishna Gopal</i>	13
Chapter 3	<i>Microorganisms in Plant Health Management</i> <i>Rakesh Kumar Rai, Bineet Kumar Sharma and Sujoy Saha</i>	31
Chapter 4	<i>Macrophages: The Versatile Frontline Defenders of Antimicrobial Immunity</i> <i>Naveen Kumar Vishvakarma and Sukh Mahendra Singh</i>	39
Chapter 5	<i>Biological Production of Clean Energy: Hydrogen</i> <i>Pankaj K. Rai and S. P. Singh</i>	55
Chapter 6	<i>Microbes: Emerging Players in the Non-Conventional Energy Sector</i> <i>Vishwas Sharma, Ramesh Chandra Pandey, Varun Kumar Sharma and Amrita Nandan</i>	85
Chapter 7	<i>MALDI-ToF Mass Spectrometry: Biomedical Applications</i> <i>Shweta Mishra, Rahul Kunwar Singh, Supriya Upadhyay, T. M. Mohapatra and M. R. Sen</i>	97
Chapter 8	<i>Modern Methods in the Diagnosis of Viral Diseases</i> <i>Tuhina Banerjee and Amitabha Bhattacharjee</i>	111
Chapter 9	<i>Real-Time Quantitative Polymerase Chain Reaction: A Potential Tool for Pathogen Detection</i> <i>Siya Ram and Ram Narayan</i>	129

Chapter 10	Biocontrol Agents: Basics to Biotechnological Applications in Sustainable Agriculture <i>Amrita Saxena, Sandhya Mishra, Richa Raghuwanshi and Harikesh Bahadur Singh</i>	141
Chapter 11	Antimicrobial Activities of Plants <i>Rajesh Sharma, R. Srivastava, M. Yadav, R. Pandey, Amrita Gupta and S. P. Tiwari</i>	165
Chapter 12	RNA Silencing and Viral Counter-Defense: A Host-Parasite Interaction <i>Rishi Srivastava, Shweta Sonam, Pratima Srivastava, C. S. Singh, S. P. Tiwari and Rajesh Sharma</i>	179
Chapter 13	Microbial Pathogens and their Toxins as Bioweapons <i>Vidya Dhar Pandey</i>	187
Chapter 14	The Key Role of Arbuscular Mycorrhizal Fungi in Medicinal and Aromatic Plants (MAPs) <i>Sumit K. Soni, Rakshapal Singh, Rajeev Gaur and Alok Kalra</i>	199
Chapter 15	Microbial Lipases: A Versatile Biocatalyst <i>N. S. Darmwal, Deepali Bisht and Santosh Kumar Yadav</i>	207
Chapter 16	Potentials of Methanogens in Natural Ecosystems <i>Rajeeva Gaur, Soni Tiwari, Manogya Kumar Gaur and Ranjan Singh</i>	245
Chapter 17	The Bacteriophage: Prospective Therapeutic Strength against Growing Antibiotic Resistance <i>Raghvendra Raman Mishra and Gopal Nath</i>	285
Chapter 18	Potential of Microbial Diversity in Environmental Protection <i>Tuhina Verma and Neha Singh</i>	297
Chapter 19	Microbial Status of Cellulases and Xylanases for Human Welfare <i>Priyanka Rai, Soni Tiwari and Rajeeva Gaur</i>	327
