List of contributors	vii
Preface	xi
<i>Slobodan Vukicevic and Kuber Sampath</i>	
Introduction	1
<i>William F. McKay, Steven M. Peckham and Jeffrey M. Badura</i>	
Development of a novel compression-resistant carrier for recombinant human bone morphogenetic protein-2 (rhBMP-2) and preliminary clinical results	7
<i>Michael Suk</i>	
Use of recombinant human BMP-2 in orthopedic trauma.....	25
<i>Daniel B. Spagnoli</i>	
The application of recombinant human bone morphogenetic protein on absorbable collagen sponge (rhBMP-2/ACS) to reconstruction of maxillofacial bone defects	43
<i>J. Kenneth Burkus</i>	
Clinical outcomes using rhBMP-2 in spinal fusion applications.....	71
<i>Christina Sieber, Gerburg K. Schwaerzer and Petra Knaus</i>	
Bone morphogenetic protein signaling is fine-tuned on multiple levels.....	81
<i>Daniel Graf and Aris N. Economides</i>	
Dissection of bone morphogenetic protein signaling using genome engineering tools	115

<i>Petra Seemann, Stefan Mundlos and Katarina Lehmann</i> Alterations of bone morphogenetic protein signaling pathway(s) in skeletal diseases	141
<i>Nandini Ghosh-Choudhury and Goutam Ghosh-Choudhury</i> Signaling crosstalk by bone morphogenetic proteins	161
<i>Stephen E. Harris, Wuchen Yang, Jelica Gluhak-Heinrich, Dayong Guo, Xiao-Dong Chen, Marie A. Harris, Holger Kulesat, Brigid L.M. Hogan, Alexander Lichtler, Barbara E. Kream, Jianhong Zhang, Jian Q. Feng, Gregory R. Mundy, James Edwards and Yuji Mishina</i> The role and mechanisms of bone morphogenetic protein 4 and 2 (BMP-4 and BMP-2) in postnatal skeletal development.....	179
<i>Jelica Gluhak-Heinrich, Dayong Guo, Wuchen Yang, Lilia E. Martinez, Marie A. Harris, Holger Kulesat, Brigid L.M. Hogan, Alexander Lichtler, Barbara Kream, Jianhong Zhang, Jian Q. Feng and Stephen E. Harris</i> The role of bone morphogenetic protein 4 (BMP-4) in tooth development.....	199
<i>Motoko Yanagita</i> Bone morphogenetic protein antagonists and kidney	213
<i>Ugo Ripamonti, Jean-Claude Petit and June Teare</i> Induction of cementogenesis and periodontal ligament regeneration by the bone morphogenetic proteins	233
<i>David J.J. de Gorter, Carola Krause, Clemens W.G.M. Löwik, Rutger L. van Bezooijen and Peter ten Dijke</i> Control of bone mass by sclerostin: inhibiting BMP- and WNT-induced bone formation	257
<i>Susan Chubinskaya, Mark Hurtig and David C. Rueger</i> Bone morphogenetic proteins in cartilage biology	277
<i>Slobodan Vukicevic, Petra Simic, Lovorka Grgurevic, Fran Borovecki and Kuber Sampath</i> Systemic administration of bone morphogenetic proteins.....	317
Index	339
