

目 录

动物模型

Aging and Memory in Animals	3
Animal Models of Amnesia.....	11
Invertebrate Models to Study Learning and Memory: <i>Lymnaea</i>	17
Learning and Memory in Invertebrate Models: <i>Tritonia</i>	25
Learning and Memory in Invertebrates: <i>Aplysia</i>	29
Learning and Memory in Invertebrates: <i>C. Elegans</i>	37
Learning and Memory in Invertebrates: <i>Drosophila</i>	45
Learning and Memory in Invertebrates: <i>Hermisenda</i>	51
Learning and Memory in Invertebrates: Honey Bee	58
Learning and Memory in Invertebrates: <i>Limax</i>	63
Learning and Memory in Invertebrates: Mollusks	68
Procedural Learning in Animals.....	76

突触可塑性与神经可塑性

Adult Cortical Plasticity	83
BDNF in Synaptic Plasticity and Memory	90
Calcium-Calmodulin Kinase II (CaMKII) in Learning and Memory.....	99
Cortical Plasticity and Learning: Mechanisms and Models.....	107
Cyclic AMP (cAMP) Role in Learning and Memory	113
Cytoskeleton in Plasticity.....	126
Endocannabinoid Role in Synaptic Plasticity and Learning	132
Extracellular Matrix Molecules: Synaptic Plasticity and Learning	145
Fear Conditioning and Synaptic Plasticity.....	153
Fragile X Syndrome	159
GABAA Receptor Synaptic Functions.....	167
Hebbian Plasticity	172
Long-Term Depression (LTD): Endocannabinoids and Cerebellar LTD	180
Long-Term Depression (LTD): Metabotropic Glutamate Receptor(mGluR) and NMDAR- Dependent Forms	187
Long-Term Depression: Cerebellum.....	193
Long-Term Potentiation (LTP).....	200

Long-Term Potentiation (LTP): Mossy Fiber cAMP-Dependent Presynaptic LTP	209
Long-Term Potentiation (LTP): NMDA Receptor Role	213
Long-Term Potentiation and Long-Term Depression in Experience-Dependent Plasticity.....	219
MAP Kinase Signaling in Learning and Memory	229
Metaplasticity	235
Neuroplasticity: Computational Approaches.....	243
Pain and Plasticity	253
Plasticity of Intrinsic Excitability	262
Plasticity, and Activity-Dependent Regulation of Gene Expression.....	269
Post-Tetanic Potentiation (PTP).....	275
Presynaptic Facilitation	281
Presynaptic Inhibition.....	290
Spike-Timing-Dependent Plasticity (STDP)	296
Stress and Neuronal Plasticity	300
Synaptic Capture and Tagging.....	304
Synaptic Depression	309
Synaptic Mechanisms of Learning.....	315
Synaptic Plasticity and Place Cell Formation.....	319
Synaptic Plasticity: Cerebellum	325
Synaptic Plasticity: Diacylglycerol Signalling Role.....	330
Synaptic Plasticity: Learning and Memory in Normal Aging.....	339
Synaptic Plasticity: Neuronogenesis and Stem Cells in Normal Brain Aging.....	345
Synaptic Plasticity: Short-Term Mechanisms.....	349
Transcription Factors in Synaptic Plasticity and Learning and Memory.....	355
Ubiquitin-Proteasome System and Plasticity	367

学习与记忆的系统 and 机制

Aging and Memory in Humans.....	379
Aging: Brain Potential Measures and Reaction Time Studies.....	385
Amnesia: Declarative and Nondeclarative Memory	390
Attentional Functions in Learning and Memory	396
Basal Forebrain and Memory	403
Birdsong Learning.....	409
Birdsong Learning: Evolutionary, Behavioral, and Hormonal Issues.....	422
Birdsong: The Neurobiology of Avian Vocal Learning.....	428
Conditioned Reflex	433
Conditioned Taste Aversion	439
Conditioning: Simple Neural Circuits in the Honeybee.....	446

Conditioning: Theories	451
Declarative Memory System: Anatomy	460
Emotional Hormones and Memory Modulation	470
Emotional Influences on Memory and Attention	478
Emotional Learning in Humans.....	484
Episodic Memory.....	489
Episodic Memory: Assessment in Animals.....	495
Event-Related Potentials (ERPs)	505
Eyeblink Conditioning	511
Functional Amnesia.....	519
Hippocampus and Neural Representations.....	526
Hippocampus: Computational Models.....	534
Hormones and Memory	540
Humans	544
Learned Flavor Aversions and Preferences.....	550
Learning, Action, Inference and Neuromodulation.....	555
Memory Consolidation: Cerebral Cortex	563
Memory Consolidation: Systems	570
Memory Disorders.....	579
Memory Representation	589
Memory: Computational Models.....	598
Memory: Genetic Approaches.....	605
Motor Autonomic Transmission.....	615
Motor Skill Learning.....	621
Multiple Memory Systems.....	631
Operant Conditioning of Reflexes.....	642
Perceptual Learning and Sensory Plasticity	651
Perceptual Learning: Neural Mechanisms.....	662
Pharmacology of Fear Extinction	669
Prediction Errors in Neural Processing: Imaging in Humans.....	675
Priming.....	684
Procedural Learning in Humans	693
Procedural Learning: Cerebellum Models.....	702
Procedural Learning: Classical Conditioning	706
Procedural Learning: Striatum.....	715
Recognition Memory	725
Reinforcement Models	731
Respiration.....	740

Reward and Learning	750
Semantic Memory	753
Short Term and Working Memory	759
Sleep-Dependent Memory Processing	766
Spatial Memory: Assessment in Animals	777
Statistical Learning of Language	785
Strategic Control of Memory	791
Visual Associative Memory	799
Working Memory: Capacity Limitations	809
原书词条中英对照表	819
