

目 录

神经递质与受体

Astrocyte: Neurotransmitter and Hormone Receptors.....	3
Cotransmission	10
Neuropeptides and Coexistence.....	18
Neurotransmitter and Hormone Receptors on Oligodendrocytes and Schwann Cells	25
Neurotransmitters and Growth Factors: Overview	34
Nitric Oxide.....	45

氨基酸与嘌呤

Adenosine.....	53
Adenosine Triphosphate (ATP)	66
Adenosine Triphosphate (ATP) as a Neurotransmitter.....	75
AMPA Receptor Cell Biology/Trafficking	84
AMPA Receptors: Disease	92
AMPA Receptors: Molecular Biology and Pharmacology	100
Calcium Waves: Purinergic Regulation	108
D-Serine: From Its Synthesis in Glial Cell to Its Action on Synaptic Transmission and Plasticity	113
GABA Synthesis and Metabolism	120
GABA _A Receptor Synaptic Functions	127
GABA _A Receptors and Disease	132
GABA _A Receptors: Developmental Roles	138
GABA _A Receptors: Molecular Biology, Cell Biology, and Pharmacology.....	147
GABA _B Receptor Function.....	155
GABA _B Receptors: Molecular Biology and Pharmacology	160
Gamma-Aminobutyric Acid (GABA).....	168
Glial Glutamate Transporters: Electrophysiology	173
Glutamate.....	178
Glutamate Receptor Clusters: Narp, EphB2 Receptor, Stargazin.....	188
Glutamate Receptor Organization: Ultrastructural Insights.....	193
Glutamate Regulation of Dendritic Spine Form and Function.....	197
Glutamatergic and Gabaergic Systems	204
Glycine Receptors: Molecular and Cell Biology.....	211

Herbal Products and GABA Receptors	218
Kainate Receptor Functions	225
Kainate Receptors: Molecular and Cell Biology	233
Long-Term Depression (LTD): Metabotropic Glutamate Receptor (mGluR) and NMDAR-Dependent Forms	238
Long-Term Potentiation (LTP): NMDA Receptor Role	244
Long-Term Potentiation and Long-Term Depression in Experience-Dependent Plasticity.....	250
Metabotropic Glutamate Receptors (mGluRs): Functions.....	260
Metabotropic Glutamate Receptors (mGluRs): Molecular Biology, Pharmacology and Cell Biology.....	266
NMDA Receptor Function and Physiological Modulation	276
NMDA Receptors and Development.....	284
NMDA Receptors and Disease.....	295
NMDA Receptors, Cell Biology and Trafficking	301
P2X Receptors	309
Pharmacology of Sleep: Adenosine	315
Postsynaptic Density/Architecture at Excitatory Synapses	325
Purinergic Receptors.....	332
Purines and Purinoceptors: Molecular Biology Overview	340
Transporter Proteins in Neurons and Glia.....	350

胺与乙酰胆碱

Acetylcholine Neurotransmission in CNS	361
Acetylcholinesterase	365
Acetylcholinesterase Inhibitors and Alzheimer's Disease.....	368
Adenosine Receptor Mediated Functions.....	373
Adrenergic Receptors.....	380
Amphetamines	385
Attention Deficit Hyperactivity Disorder (ADHD): Methylphenidate (Ritalin) and Dopamine	390
Aversive Emotions: Genetic Mechanisms of Serotonin.....	397
Brain Adrenergic Neurons.....	404
Cells: 5-Hydroxytryptamine Receptors.....	412
Cholinergic Neurotransmission in the Autonomic and Somatic Motor Nervous System	422
Cholinergic Pathways in CNS	430
Cholinergic System.....	439
Dopamine	451
Dopamine-CNS Pathways and Neurophysiology.....	460

Dopamine Control of Arousal.....	467
Dopamine in Perspective.....	473
Dopamine Neurons: Reward and Uncertainty	481
Dopamine Receptors and Antipsychotic Drugs in Health and Disease	488
Dopamine: Cellular Actions	506
Dopaminergic Agonists and L-DOPA.....	510
Histamine Receptors and their Ligands: Mechanisms and Applications	517
3,4-Methylenedioxymethamphetamine (MDMA, "Ecstasy").....	535
Monoamine Transporters: Focus on the Regulation of Serotonin Transporter by Cytokines	542
Monoamines.....	551
Monoamines: Human Brain Imaging.....	558
Monoamines: Release Studies.....	572
Muscarinic Receptors: Autonomic Neurons	580
Neuroleptics	589
Neurotransmission and Neuromodulation: Acetylcholine.....	596
Nicotine.....	601
Nicotinic Acetylcholine Receptors.....	608
Nicotinic Receptors: Autonomic Neurons	613
Noradrenaline.....	618
Norepinephrine: Adrenergic Receptors.....	628
Norepinephrine: CNS Pathways and Neurophysiology	634
Octopamine and Other Monoamines in Invertebrates	646
Serotonin (5-Hydroxytryptamine; 5-HT): Neurotransmission and Neuromodulation	653
Serotonin (5-Hydroxytryptamine; 5-HT): CNS Pathways and Neurophysiology	659
Serotonin (5-Hydroxytryptamine; 5-HT): Receptors.....	667
Serotonin and the Regulation of Mammalian Circadian Rhythms	681
Serotonin-Related Psychedelic Drugs.....	689
Sleep-Wake State Regulation by Acetylcholine.....	697
Sympathomimetic Drugs and Adrenergic Receptor Antagonists.....	701
Trace Monoamines and Receptors in Mammalian CNS.....	712
原书词条中英对照表	721
