

目 录

Amphibian Peptides	1
Apelin	10
BDNF in Synaptic Plasticity and Memory	18
Calcitonin Gene-Related Peptide (CGRP) and Receptors.....	27
CCK/Gastrin and Receptors	39
Circadian Function and Therapeutic Potential of Melatonin in Humans.....	42
Corticotropin-Releasing Hormone and Urocortins: Binding Proteins and Receptors.....	50
Endocannabinoid Role in Synaptic Plasticity and Learning	57
Enteric Nervous System: Neurotrophic Factors.....	70
Galanin and Receptors.....	76
GFL Neurotrophic Factors: Physiology and Pharmacology.....	84
Glial Growth Factors	94
Growth Factors: Neuronal Atrophy.....	101
Hypocretin/Orexin and MCH and Receptors	107
Insulin-Like Growth Factor Signaling and Actions in Brain	113
Invertebrate Neurohormone GPCRs.....	121
Kisspeptins and their Receptors.....	129
Magnocellular Neurosecretory System: Organization, Plasticity, Model Peptidergic Neurons	136
Mammalian Neuropeptide Families	147
Melanocortins: Brain Effects	161
Melatonin Regulation of Circadian Rhythmicity in Vertebrates	168
Natriuretic Peptides	180
Nerve Growth Factor	184
Neuroendocrine Peptide Processing.....	192
Neuromodulation.....	200
Neuronal Angiotensin.....	207
Neuropeptide FF and Receptors	213
Neuropeptide Inactivation or Metabolism	219
Neuropeptide Receptors-Drug Development	230
Neuropeptide Release.....	240
Neuropeptide S	246

Neuropeptide Signaling in Invertebrates	249
Neuropeptide Synthesis and Storage	257
Neuropeptide Y (NPY) and its Receptors.....	265
Neuropeptides and Coexistence.....	271
Neuropeptides and Receptors in Glia	278
Neuropeptides in Autonomic Neurons.....	287
Neuropeptides Internalization.....	293
Neuropeptides Phylogeny and Evolution	298
Neuropeptides: Discovery.....	306
Neuropeptides: Electrophysiology	310
Neuropeptides: Endocrine Cells.....	316
Neuropeptides: Enteric Nervous System.....	323
Neuropeptides: Epilepsy	331
Neuropeptides: Food Intake	339
Neuropeptides: Mental Disease	346
Neuropeptides: Pain	354
Neuropeptides: Sensory Systems.....	358
Neurotensin and Receptors.....	367
Neurotransmitters and Growth Factors: Overview	381
Neurotrophic Factor Therapy: GDNF and CNTF.....	392
Neurotrophic Factor Therapy: NGF, BDNF and NT-3	400
Neurotrophins: Physiology and Pharmacology	408
Opioid Peptides and Receptors	414
Peptidergic Receptors	420
Pineal Gland and Melatonin.....	427
Prolactin and its Neuroendocrine Control.....	432
Prolactin-Releasing Peptide.....	439
Proopiomelanocortin	445
Retrograde Neurotrophic Signaling.....	448
Somatostatin and Receptors	455
Substance P/Tachykinins and its/their Receptors.....	462
TIP39 (Tuberoinfundibular Peptide of 39 Residues).....	479
Vasoactive Intestinal Peptide and Pituitary Adenylate Cyclase Activating Peptide Receptors	488
Vasopressin/Oxytocin and Receptors.....	496
原书词条中英对照表	505
