Adrenal Steroids: Biphasic Effects on Neurons	3
Angiotensin Actions on and within Brain.....	7
Birdsong Learning: Evolutionary, Behavioral, and Hormonal Issues.....	15
Chromaffin Cells: Model Cells for Neuronal Cell Biology	21
Chronic (Repeated) Stress: Consequences, Adaptations.....	30
Circumventricular Organs in Neuroendocrine Control	37
Clock Gene Regulation of Endocrine Function	41
Corticotropin-Releasing Hormone and Urocortins: Binding Proteins and Receptors.....	44
Corticotropin-Releasing Hormone: Integration of Adaptive Responses to Stress.....	51
Emotional Hormones and Memory Modulation	58
Endocrine Function During Sleep and Sleep Deprivation.....	66
Estrus and Menstrual Cycles: Neuroendocrine Control.....	70
Gene Expression Regulation: Steroid Hormone Effects	75
Glial Plasticity and Neuroendocrine Regulation	82
Glial Steroid Metabolism	90
Gonadal Steroid Actions on Brain	96
Gonadotropin, Neural and Hormonal Control.....	103
Gonadotropin-Releasing Hormone: GnRH-1 System.....	110
Growth Hormone	117
Hormonal Signaling to the Brain for the Control of Feeding/Energy Balance.....	123
Hormones and Behavior	129
Hormones and Memory	138
Hypothalamic Structure-Function Relationships	142
Hypothalamic-Pituitary-Adrenal (HPA) Axis.....	150
Hypothalamic-Pituitary-Thyroid Axis: Organization, Neural/Endocrine Control of TRH	160
Immune System-Neuroendocrine Interactions	173
Invertebrate Neurohormone GPCRs.....	180
Kisspeptins and their Receptors.....	188
Magnocellular Neurosecretory System: Organization, Plasticity, Model Peptidergic Neurons	195
Metabolic Syndrome and Sleep.....	206

Neuroendocrine Aging: Hypothalamic-Pituitary-Gonadal Axis in Women	211
Neuroendocrine Aging: Pituitary Metabolism	218
Neuroendocrine Aging: Pituitary-Adrenal Axis	227
Neuroendocrine Aging: Pituitary-Gonadal Axis in Males	234
Neuroendocrine Control of Energy Balance (Central Circuits/Mechanisms)	244
Neuroendocrine Control: Maternal Behavior	250
Neuroendocrine Peptide Processing	260
Neuroendocrinology	268
Neuroendocrinology of Affective Disorders	272
Neuroendocrinology of Puberty	284
Neuroendocrinology of Social/Affiliative Behavior	293
Neurohypophyseal System	300
Neuroimmune System: Aging	310
Neuropeptides: Endocrine Cells	316
Neurosecretion (Regulated Exocytosis in Neuroendocrine Cells)	323
Neurosteroids	331
Oxytocin (Peripheral/Central Actions and their Regulation)	337
Pineal Gland and Melatonin	348
Pituitary Gland (Cell Types, Mediators, Development)	353
Prolactin and its Neuroendocrine Control	361
Proopiomelanocortin	368
Pulsatility in Neuroendocrine Systems	371
Seasonal Hormonal Changes and Behavior	379
Sexual Behavior: Neuroendocrine Control	387
Stress and Neural Involvement in Metabolism	393
Stress and Suicide	401
Stress Response: Neural and Feedback Regulation of the HPA Axis	410
Stress, Dopamine, and Puberty	416
Stress, the HPA Axis and Depressive Illness	424
Sympathetic Noradrenergic and Adrenomedullary Hormonal Systems in Stress and Distress	430
Sympathoadrenal System: Neural Arm of the Stress Response	436
Thermoregulation: Autonomic, Age-Related Changes	442
Thyroid Hormone and Transcriptional Regulation in the CNS	452
TIP39 (Tuberoinfundibular Peptide of 39 Residues)	460
Vasopressin/Oxytocin and Receptors	469

神经免疫学

Autonomic Neuroimmunology	481
Cytokine Receptors in Glia.....	487
Glial Cells: T Cell Interactions.....	493
Immune Function During Sleep and Sleep Deprivation	501
Inflammation in Neurodegenerative Disease and Injury.....	506
Neural Repair and Regeneration: Inflammatory Mechanisms and Cytokines	512
PANDAS (Pediatric Autoimmune Neuropsychiatric Disorders Associated with Streptococcal Infections).....	519
Sleep and Sleep States: Cytokines and Neuromodulation.....	525
Stress, Cytokines and Depressive Illness	532
原书词条中英对照表	541
