

## ❖ CONTENTS

---

### SECTION I

Applying the Basic Sciences to Clinical Medicine 1

---

Approach to Learning Biochemistry 3

Approach to Disease 3

Approach to Reading 3

### SECTION II

Clinical Cases 7

---

Cases 1-13 Gene Expression and Protein Synthesis 9

Cases 14-19 Metabolism and ATP 153

Cases 20-29 Carbohydrate Metabolism 209

Cases 30-34 Lipid Metabolism 315

Cases 35-40 Protein Metabolism 365

Cases 41-46 Biochemical Endocrinology 425

### SECTION III

Listing of Cases 477

---

Listing By Case Number 478

Listing By Alphabetical Order 483
