

Contents

<i>Preface</i>	<i>vii</i>
1. The Molecular Design of Life	1
2. Biochemical Evolution	12
3. Cells Can Respond to Changes in their Environments	27
4. Protein Structure and Function	34
5. Exploring Proteins	65
6. DNA, RNA, and the Flow of Genetic Information	104
7. Exploring Genes	129
8. Exploring Evolution	160
9. Catalytic Strategies	213
