
Contents

<i>Preface</i>	<i>v</i>
1. Introduction to Microscopy	1
2. General Features of Plant Cells	22
3. Dermal and Assimilation Tissues	42
4. Vascular Tissues	68
5. Intracellular Structures	100
6. Plant Cell Nucleus	107
7. Plant Mitochondria	147
8. Microbodies and Microtubules	178
9. Structure and Development of Chloroplasts	219
10. Functions of Plant Cell Walls	234
11. Membrane Structure and Transport in Plants	251
12. Protein Synthesis in Plants	273
13. Functions of Plant Hormones	294
<i>Bibliography</i>	307
<i>Index</i>	311
