

CONTENTS

Foreword	v
Preface	vii
A Tribute to Prof. H.C. Arya	ix
Contributors	xi
1. Contamination Control and Enhanced Axillary Budding from Mature Explants of <i>Taxus baccata</i> ssp. <i>wallichiana</i> <i>Anjali A. Kulkarni and K.V. Krishnamurthy</i>	1
2. Bioinformatics: An Overview <i>Pramod Tandon and Pallavi Bhattacharjee</i>	29
3. Intellectual Property Rights in Biotechnology <i>H.S. Chawla and A.K. Singh</i>	51
4. <i>In vivo</i> and <i>in vitro</i> Studies on Plant Tumors <i>U. Kant and Vidya Patni</i>	67
5. Integrated Approaches of Mutagenesis and <i>in vitro</i> Selection for Crop Improvement <i>P. Suprasanna, Meenakshi Sidha and V.A. Bapat</i>	73
6. Clonal Fidelity in Micropropagated Plants <i>Sapna Malik-Ahluwat, Alka Narula, Sandip Das and P.S. Srivastava</i>	93
7. Tissue Culture of Date Palm (<i>Phoenix Dactylifera</i> L.)— A Non-conventional Approach <i>Mangal Singh and N.S. Shekhawat</i>	109
8. Cytological Analysis of Nodal Stem Segment and Callus Regenerated Plantlets of <i>Azadirachta indica</i> A. Juss. (Neem) <i>Kavita Arora, Meena Sharma, Kavita Kapoor, Alka Srivastava and A.K. Sharma</i>	121
9. Establishment of an <i>in vitro</i> Clonal Propagation Method for Commercial Exploitation from a High Biomass Yielding <i>Aloe Vera</i> (L.) Germplasm <i>Aparajita Mitra and Amita Pal</i>	133
10. Unravelling the Molecular Basis of Somatic Embryogenesis <i>Paramjit Khurana and Bhumica Singla</i>	141

11. Doubled Haploids in Crop Brassicas: Retrospect and Prospects <i>Deepak Prem, Kadambari Gupta and Abha Agnihotri</i>	155
12. Tissue Culture Studies on Bamboos <i>I.D. Arya, Reetu Sharma, Sudhir Chauhan and Sarita Arya</i>	187
13. Cloning of Female Plant of <i>Simmondsia Chinensis</i> (Link) Schneider Selected for Cultivation in Rajasthan <i>Ram K. and N.S. Shekhawat</i>	211
14. Comparative Studies on Somatic Embryogenesis and Plant Regeneration from Immature and Mature Zygotic Embryo Axes of Groundnut (<i>Arachis hypogaea</i> L.) <i>A. Roja Rani and G. Padmaja</i>	217
15. <i>In vitro</i> Studies and Micropropagation of <i>Anacyclus pyrethrum</i> and <i>Crataeva nurvala</i> <i>D. Panwar, M. Singh, M.S. Rathore and N.S. Shekhawat</i>	227
16. Micropropagation and Large-Scale Plant Regeneration of Edible Bamboo <i>Dendrocalamus asper</i> through Somatic Embryogenesis <i>Sarita Arya, Richa Satsangi, Abhinav Kant, R.N. Pandey, S.K.S. Chauhan, Sudhir Sharma and I.D. Arya</i>	233
17. Natural Products of Plant Origin with Therapeutic Potentiality and their Biotechnological Production <i>K.G. Ramawat, Shaily Goyal, Narendr Kumar and K.C. Sonie</i>	247
18. Micropropagation of Medicinal Plants of Indian Desert and Aravallies <i>M.S. Rathore, B. Singh, Vinod Kataria and N.S. Shekhawat</i>	281
19. Morphological and Biochemical Changes in <i>in vitro</i> Raised <i>Arachis hypogaea</i> Var RG-141, Under Different Growth Regulators <i>Smita Chaudhry and Bhavna Pokhariyal</i>	291
20. Morphogenesis in Cultured Tissues of Three Grass Species <i>A. Kackar and N.S. Shekhawat</i>	299
21. <i>In vitro</i> Propagation of <i>Vigna</i> sp <i>Abhijeet Singh, Kavita Mathur, C. Rajasekaran, T. Kalaivani, Navneet Sidhu and Sarika Gupta</i>	307
22. Biology and Biotechnology of Groundnut (<i>Arachis hypogaea</i> L.) — A Review <i>Rohini Trivedi and Sunil Dutta Purohit</i>	315

23.	Propagation of <i>Chlorophytum Borivillianum</i> San. and Fern—A Review <i>Vidhu Aeri, Deepshika Pande and G.S. Chakraborty</i>	333
24.	Recent Advances in Micropropagation of <i>Chlorophytum Borivillianum</i> Sant. & Fern. <i>Gayatri K. Vaidya and Vincent J. Braganza S.J.</i>	343
25.	Enhancement of Secondary Metabolites by Elicitation and Metabolic Engineering <i>Deepshikha Pande Katare, Sameer Bhargava and Vidhu Aeri</i>	353
26.	High Frequency Plant Regeneration for <i>Saccharum Munja</i> — A Useful Plant of Arid Area <i>Vinod Kataria and N.S. Shekhawat</i>	371
27.	Biology and Biotechnology of <i>Lasiurus Indicus</i> (Shewan): A Valuable Grass of Thar Desert <i>H.S. Gehlot, Poonam Agarwal, Pooja Khurana and N.S. Shekhawat</i>	381
28.	Liquid Culture System Stimulates <i>in vitro</i> Growth and Shoot Multiplication in Some Medicinally Important Plant Species of Aravallis in Rajasthan <i>Rakhi Nagori, Praveena Rathore, Shailendra Vyas, Neelu Joshi, Manohar Singh Rao, Rajesh Suthar, Parul Mathur and Sunil Dutta Purohi</i>	395
29.	<i>In vitro</i> Approaches for Plant Regeneration and Conservation of Some Potential Medicinal Plants <i>Mohammad Anis, Mohd Kashif Husain, Mohd Faisal, Anwar Shahzad, Naseem Ahmad, Iram Siddique and Hina Khan</i>	407
30.	Rejuvenation of Mature Plant Tissues <i>L. D'Souza, Shashikiran Nivas, Anuradha Rao, Smitha Hegde, Icy D'Silva</i>	421
31.	Molecular Characterization of Diversity in <i>Feronia limonia</i> Using ISSR Markers <i>Shailendra Vyas, Anupama Gaur, Akhilesh K. Tyagi and Sunil Dutta Purohit</i>	431
32.	Molecular and Morphometric Diversity in Relation to Breeding System in <i>Andrographis Paniculata</i> (Burm. f.) Nees <i>Surrinder K. Lattoo, Rekha S. Dhar, Shabnam Khan, Shishupaul Bamotra, Maharaj K. Bhan, Autar K. Dhar and Kuldip K. Gupta</i>	445
33.	An Approach to Determine Polymorphic and Sharing of Genome Between Crops of Poaceae Family (Wheat, Rice and Sugarcane) Using RAPD as Genetic Tool <i>Nandita Singh and G.K. Garg</i>	463

34.	Molecular Biology of Fruit Ripening <i>C.P. Malik</i>	473
35.	Molecular Markers — An Important and Indispensable Biotechnological Tool for Crop Improvement and Conservation <i>Deevan Julfikar Ali and Amla Batra</i>	505
36.	Morphological and Molecular Characterization of a Rare Medicinal Herb 'Safed Musli' (<i>Chlorophytum Borivilianum</i> Sant. Et Fernand.) <i>N. Joshi, G.J. Randhawa and S.D. Purohit</i>	519
37.	Biochemical Changes Associated with Morphogenesis in Saffron <i>R.K. Sharma, Ashok Ahuja, M. Sharada and C.M. Govil</i>	531
38.	Insecticidal Genes and their Sustainable Use in Insect Resistant Transgenic Crops <i>Suresh Kumar</i>	549
39.	Gene Tagging : A Golden Research Area in Agriculture Biotechnology <i>Shivangi Mathur and P.C. Trivedi</i>	577
40.	Alternative Respiration may have a Role in Reducing Oxidative Stress in Plants <i>K. Annamalaiathan, N.L. Taylor, Jamesh Jacob, P.M. Finnegan and D.A. Day</i>	599
41.	Tissue Culture Techniques in Introgression of Resistance to <i>Alternaria helianthi</i> from Wild Sunflowers to Cultivated Sunflower (<i>Helianthus annuus</i> L.) <i>M. Sujatha</i>	609
42.	Virus Resistance Inducing Proteins From Plants <i>H.N. Verma and A.K. Singh</i>	623
43.	Effect of NaCl and Thermal Stress on Proline Content and Electrophoretic Behaviour of Protein in Small-Millet Seedlings Grown <i>in vitro</i> <i>Vidhya Laxmi, Bhana Ram Gadi and S.P. Bohra</i>	641
44.	A Study of Systemic Acquired Responses to Pathogen Attack in Certain Economically Important Crops <i>Ruchi Chauhan, Ritu Sareen, Ashok Munjal and Vinay Sharma</i>	651
45.	Efficient Microdosing of Phosphorus to Pearl Millet Hybrids (<i>Pennisetum americanum</i> L.) for Improved Seedling Establishment under Nutrient-Stressed Environments <i>Ravi Valluru, Reshma Rizvi, C. Tom Hash and Vincent Vadez</i>	669
