

Contents

Preface

1. The Gene Illusion	1
2. Genes and Behavior : A Complex Relationship	9
3. Recombinant Human Interferon Gamma	45
4. Basic Concepts and Techniques of Molecular Genetics	106
5. Molecular Targets for Tumour Progression in Gastrointestinal Stromal Tumours	118
6. In Silico Gene Expression Analysis	129
7. Behavioral Genetics: Meet Molecular Biology	147
8. Gene Expression Profiling by DNA	171
<i>Bibliography</i>	210
<i>Index</i>	212
