

Contents

Foreword	ix
Preface	xi
Overview	xiii
Part I False Discovery Rates	
1. A New Adaptive Method to Control the False Discovery Rate <i>Fang Liu and Sanat K. Sarkar</i>	3
2. Adaptive Multiple Testing Procedures Under Positive Dependence <i>Wenge Guo, Sanat K. Sarkar and Shyamal D. Peddada</i>	27
3. A False Discovery Rate Procedure for Categorical Data <i>Joseph F. Heyse</i>	43
Part II Survival Analysis	
4. Conditional Nelson-Aalen and Kaplan-Meier Estimators with the Müller-Wang Boundary Kernel <i>Xiaodong Luo and Wei-Yann Tsai</i>	61
5. Regression Analysis in Failure Time Mixture Models with Change Points According to Thresholds of a Covariate <i>Jimin Lee, Thomas H. Scheike and Yanqing Sun</i>	87
6. Modeling Survival Data Using the Piecewise Exponential Model with Random Time Grid <i>Fabio N. Demarqui, Dipak K. Dey, Rosangela H. Loschi, and Enrico A. Colosimo</i>	109

7. Proportional Rate Models for Recurrent Time Event Data Under Dependent Censoring: A Comparative Study 123
Leila D. A. F Amorim, Jianwen Cai and Donglin Zeng
8. Efficient Algorithms for Bayesian Binary Regression Model with Skew-Probit Link 143
Rafael B. A. Farias and Marcia D. Branco
9. M-Estimation Methods in Heteroscedastic Nonlinear Regression Models 169
Changwon Lim, Pranab K. Sen and Shyamal D. Peddada
10. The Inverse Censoring Weighted Approach for Estimation of Survival Functions from Left and Right Censored Data 191
Sundarraman Subramanian and Peixin Zhang
11. Analysis and Design of Competing Risks Data in Clinical Research 207
Haesook T. Kim

**Part III Related Topics: Genomics/Bioinformatics,
Medical Imaging and Diagnosis, Clinical Trials**

12. Comparative Genomic Analysis Using Information Theory 223
Sarosh N. Fatakia, Stefano Costanzi and Carson C. Chow
13. Statistical Modeling for Data of Positron Emission Tomography in Depression 247
Chung Chang and R. Todd Ogden
14. The Use of Latent Class Analysis in Medical Diagnosis 257
David Rindskopf
15. Subset Selection in Comparative Selection Trials 271
Cheng-Shiun Leu, Ying Kuen Cheung and Bruce Levin
- Index 289
