

CONTENTS

Contributors		vii
Preface		xiii
Section 1	Neuronal Autophagy: Cellular Process and Regulation	1
Chapter 1	The Cellular Process of Autophagy and Control of Autophagy in Neurons <i>Nicole C. McKnight, Noboru Mizushima and Zhenyu Yue</i>	3
Chapter 2	Autophagosome Maturation, Endocytosis and Neurodegenerative Disease <i>Ai Yamamoto and Anne Simonsen</i>	37
Chapter 3	Cross-Talk Between the Ubiquitin-Proteasome System and Macroautophagy <i>Serhiy Pankiv and Terje Johansen</i>	59
Chapter 4	Chaperone-Mediated Autophagy (CMA) in Neurons <i>Maria Xilouri, Hsiao-Yu Peng and Leonidas Stefanis</i>	87
Chapter 5	Maintaining Autophagic Balance: A Role for Brakes <i>Salvatore J. Cherra, III and Charleen T. Chu</i>	105
Section 2	Autophagy and Neurological Diseases	127
Chapter 6	Autophagy and Its Cross-Talk with Cell Death in Neural Development <i>Sabrina Di Bartolomeo and Francesco Cecconi</i>	129
Chapter 7	Autophagy in the Retina: Development, Physiology and Pathology <i>Patricia Boya</i>	149

Chapter 8	Genetic Mouse Models for Elucidation of Autophagy-Lysosomal Systems in Neurons under Physiologic and Pathologic Conditions <i>Masaaki Komatsu, Masato Koike, Yoshinobu Ichimura and Yasuo Uchiyama</i>	175
Chapter 9	Autophagy in Amyotrophic Lateral Sclerosis <i>Jozsef Gal and Haining Zhu</i>	205
Chapter 10	Autophagy Failure in Alzheimer's Disease and Lysosomal Storage Disorders: A Common Pathway to Neurodegeneration? <i>Devin M. Wolfe and Ralph A. Nixon</i>	237
Chapter 11	Autophagy in Huntington's and Parkinson's Diseases: Pathogenic Mechanisms and Therapeutic Potentials <i>Junghyun Lim, Lauren G. Friedman, Nicole C. McKnight and Zhenyu Yue</i>	259
Chapter 12	Metabolism, Autophagy and Neurodegeneration <i>W. Haung Yu and Karen E. Duff</i>	285
Chapter 13	The Potential of Autophagy Regulation in the Treatment of Neurodegenerative Diseases <i>Ashley R. Winslow, Zeyn W. Green-Thompson and David C. Rubinsztein</i>	305
Chapter 14	Lysosome Storage Disorders on the Brain: The Autophagy-Lysosome Pathway Contributes to Disease Pathophysiology and May be Utilized for Therapeutic Benefit <i>John J. Shacka</i>	331
Section 3	Specialized Autophagy: The New Frontier	355
Chapter 15	Autophagy — Roles in Synaptic Structure and Function <i>Daniela Hernandez and David Sulzer</i>	357
Chapter 16	Neuronal Mitochondrial Transport and Turnover via Mitophagy <i>Zu-Hang Sheng and Charleen T. Chu</i>	375
Chapter 17	Role of Autophagy in Neurite Degeneration <i>in Vitro</i> <i>Yi Yang, Xiaoxiang Zheng and Tatsuro Koike</i>	407
<i>Index</i>		423
