Interactions Between Behaviour and Physical Forcing in the Control of Horizontal Transport of Decapod Crustacean Larvae

Henrique Queiroga and Jack Blanton

1. Introduction.....	109
2. Definitions	113
3. Marine Physical Processes and Larval Transport Mechanisms	118
4. Cyclic Vertical Migration in the Natural Environment.....	137
5. Ontogenetic Migration and the Extent of Vertical Movements.....	143
6. Significance of Vertical Migration in Dispersal: Evidence from Field Studies.....	148
7. Proximate Factors Controlling Vertical Migration: Environmental Factors and Endogenous Rhythms	161
8. Behavioural Control of Vertical Migration: Evidence from Laboratory Studies	164
9. Nonrhythmic Vertical Migration.....	186
10. Mechanism for Depth Regulation.....	187
11. Modifiers of Vertical Migration Pattern: Temperature, Salinity, and Food	188

12. Vertical and Horizontal Swimming Velocities.....	190
13. Measurements of Horizontal Transport.....	192
Acknowledgements	196

Comparison of Marine Copepod Outfluxes: Nature, Rate, Fate and Role in the Carbon and Nitrogen Cycles

C. Frangoulis, E. D. Christou and J. H. Hecq

1. Introduction	254
2. Nature of Copepod Outfluxes	256
3. Factors Controlling the Rate of Copepod Outfluxes	263
4. Vertical Flux.....	269
5. Role of Copepod Outfluxes	280
6. Discussion	285
