I am most grateful to Doctors G.I. Bell, L.L. Cavalli-Sforza, M. Denaro, J.F. Gusella, Y.W. Kan and S.H. Orkin for permission to reproduce certain illustrations and published data, and to the publishers: *Lancet* (Figs. 1.2, 3.7 and 7.5), Churchill Livingstone (Tables 5.2, 6.2 and 8.2, and Fig. 3.10), *Nature* (Figs. 7.9 and 7.13) and the *Proceedings of the National Academy of Sciences* (Fig. 9.1). I am particularly grateful to Professor David Weatherall for his patient help with my understanding of the thalassaemias, to Dr. John Gosden, Professor Rodney Harris and my wife, Dr. Rosalind Emery, for reading the entire script and for making many helpful comments and suggestions, John Pizer for help with the illustrations, Mrs. Isobel Black for deciphering my cryptic writing and typing the manuscript so efficiently, and Dr. John Jarvis and his colleagues of Wiley for their encouragement and support throughout.
