

Contents

List of Contributors	vii
Preface	ix
Planar polarity in the <i>Drosophila</i> wing Paul N. Adler	1
Planar cell polarity in the <i>Drosophila</i> eye: Cell fate and organization Marek Mlodzik	15
Long-range coordination of planar polarity patterning in <i>Drosophila</i> Helen Strutt and David Strutt	39
Dorsoventral boundary for organizing growth and planar polarity in the <i>Drosophila</i> eye Amit Singh, Janghoo Lim and Kwang-Wook Choi	59
Recent discoveries in vertebrate non-canonical Wnt signaling: Towards a Wnt signaling network Petra Pandur	91
Planar cell polarity in the vertebrate inner ear Alain Dabdoub, Mireille Montcouquiol and Matthew W. Kelley	107
Morphogenetic cell movements shaping the zebrafish gastrula Jason R. Jessen and Lilianna Solnica-Krezel	131
Index	167
Color plate section	173
