

ACKNOWLEDGEMENTS

The publishers would like to thank the following for permission to reprint their material:

Blackwell Publishing for permission to reprint Redford, K. H. and Richter, B. D. (1999) Conservation of biodiversity in a world of use. *Conservation Biology* 13:6, 1246–56.

Blackwell Publishing for permission to reprint Noss, R. F. (1990) Indicators for monitoring biodiversity – a hierarchical approach. *Conservation Biology* 4:4, 355–64.

Annual Reviews for permission to reprint Humphries, C. J., Williams, P. H. and Vane-Wright, R. I. (1995) Measuring biodiversity value for conservation. *Annual Review of Ecology and Systematics*, Volume 26 © 1995 by Annual Reviews www.annualreviews.org

Annual Reviews for permission to reprint Dirzo, R. and Raven, P. H. (2003) Global state of biodiversity and loss. *Annual Review of Environment and Resources*, Volume 28 © 2003 by Annual Reviews www.annualreviews.org

Annual Reviews for permission to reprint Bush, G. L. (1975) Modes of animal speciation. *Annual Review of Ecology and Systematics*, Volume 6 © 1975 by Annual Reviews www.annualreviews.org

Nature Publishing Group for permission to reprint Rainey, P. B. and Travisano, M. (1998) Adaptive radiation in a heterogeneous environment. *Nature* 394:6688, 69–72.

The University of Chicago Press for permission to reprint Schluter, D. (1996) Ecological causes of adaptive radiation. *American Naturalist* 148, S40–S64.

Wiley-Blackwell Publishing for permission to reprint Mayhew, P. J. (2007) Why are there so many insect species? Perspectives from fossils and phylogenies. *Biological Reviews* 82:3, 425–54.

Nature Publishing Group for permission to reprint Gaston, K. J. (2000) Global patterns in biodiversity. *Nature* 405:6783, 220–27.

Annual Reviews for permission to reprint Willig, M. R., Kaufman, D. M. and Stevens, R. D. (2003) Latitudinal gradients of biodiversity: pattern, process, scale, and synthesis. *Annual Review of Ecology and Systematics*, Volume 34 © 2003 by Annual Reviews www.annualreviews.org

AAAS for permission to reprint Benton, M. J. (1995) Diversification and extinction in the history of life. *Science* 268:5207, 52–58.

AAAS for permission to reprint Steadman, D. W. (1995) Prehistoric extinctions of Pacific island birds – biodiversity meets zooarchaeology. *Science* 267:5201, 52–58.

Annual Reviews for permission to reprint Koch, P. L. and Barnosky, A. D. (2006) Late Quaternary extinctions: state of the debate. *Annual Review of Ecology and Systematics*, Volume 37 © 2006 by Annual Reviews www.annualreviews.org

Annual Reviews for permission to reprint Hedrick, P. W. and Kalinowski, S. T. (2000) Inbreeding depression in conservation biology. *Annual Review of Ecology and Systematics*, Volume 31 © 2000 by Annual Reviews www.annualreviews.org

Elsevier Limited for permission to reprint Tallmon, D. A., Luikart, G. and Waples, R. S. (2004) The alluring simplicity and complex reality of genetic rescue. *Trends in Ecology and Evolution* 19:9, 489–96. Copyright Elsevier 2004.

The University of Chicago Press for permission to reprint Lande, R. (1993) Risks of population extinction from demographic and environmental stochasticity and random catastrophes. *American Naturalist* 142:6, 911–27.

The American Institute of Biological Sciences for permission to reprint Mills, L. S., Soulé, M. E. and Doak, D. F. (1993) The keystone species concept in ecology and conservation. *Bioscience* 43:4, 219–24.

The Royal Swedish Academy of Sciences for permission to reprint Ehrlich, P. R. and Ehrlich, A. H. (1992) The value of biodiversity. *Ambio* 21:3, 219–26.

Nature Publishing Group for permission to reprint Costanza, R., d'Arge, R., de Groot, R., Farber, S., Grasso, M., Hannon, B., Limburg, K., Naeem, S., O'Neill, R. V., Paruelo, J., Raskin, R. G., Sutton, P. and van den Belt, M. (1997) The value of the world's ecosystem services and natural capital. *Nature* 387, 253–60.

Wiley-Blackwell Publishing for permission to reprint Jepson, P. and Canney, S. (2003) Values-led conservation. *Global Ecology and Biogeography* 12:4, 271–4.

Disclaimer

The publishers have made every effort to contact authors/copyright holders of works reprinted in *Biodiversity and Conservation (Critical Concepts in the Environment)*. This has not been possible in every case, however, and we would welcome correspondence from those individuals/companies whom we have been unable to trace.
