

FREE CD-ROM

McGraw-Hill's *Essential Study Partner (ESP) CD-ROM* is packaged free with every new copy of *Mader: Human Biology* sixth edition. This CD-ROM tutorial supports and enhances the material presented in the sixth edition of *Human Biology* and will enhance student learning with the use of high quality 3-D animations, activities that require the student to be active in the learning process, module and unit quizzes that take the student back into the material on the CD to review immediately, and illustrated overviews of key topics.

TEXT WEB SITE

This text-specific site has been developed exclusively for users of the sixth edition of *Human Biology*. When visiting the site, students can access additional study aids, take chapter quizzes with immediate feedback provided, explore links to other relevant biology sites, catch up on current information, and pursue other activities. Check it out at www.mhhe.com/biosci/genbio/mader.
