

About the front cover

Lions, highly adapted predators of the African plain, are not immediately threatened with extinction but their long-term survival is in doubt. Hunting is regulated but as civilization spreads many are illegally killed along with their prey.

Learning biology can be easy and fun!

Take yourself to the top of the class with the **Essential Study Partner** two CD-ROM set. It's never been easier to master core biological concepts. Packed with over 100 animations, more than 200 learning activities, interesting interactive diagrams and study quizzes, the **Essential Study Partner** two CD-ROM set for Mader's Biology is perfect for understanding difficult concepts and reinforcing what you've learned in the text and lectures.

Through the use of the **Online Learning Center**, instructors can create a more interactive course, and students will find tools that help them improve their grades and take a closer look at particular topics of interest. With quizzes, study questions, interactive exercises, and links to chapter-related websites, you'll find there's never been a more exciting way to study biology.

For Instructors

More than 6,000 professors have chosen **PageOut** to create course websites. And for good reason: **PageOut** offers powerful features, yet is incredibly easy to use. No coding or web page design experience is necessary — simply choose from the selection of templates to post course information and an interactive syllabus online. And now you can be the first to use an even better version of **PageOut**. Through class-testing and customer feedback, we have made key improvements to the grade book, as well as the quizzing and discussion areas. And students needn't bother with any special tokens or fees to access your **PageOut** website.

PageOut

Create a custom course Website with **PageOut**,
free with every McGraw-Hill textbook.
