11th Hour Series

The clock is ticking...

Midterms or finals approaching?
Struggling to get a grip on your course?
Want a "can't miss" way to pass your exams?

...look no further—the 11th Hour Series

- **PREPARE TO LEARN**—the *Essential Background* topics at the beginning of each chapter will alert you to concepts that you'll want to master in order to conquer the subject.
- **LEARN WHAT YOU NEED TO KNOW**—*Key Points* identify the most important concepts and highlight what you really need to know and understand.
- **STAY FOCUSED**—clear, brief explanations of difficult subjects will keep you involved and make it easy to stay focused on learning exactly what is necessary.
- **EASY TO UNDERSTAND**—see how the information that you're learning will be used in a practical, real life setting with the *Clinical Correlations & Applications* provided in each chapter.
- **INCREASE YOUR TEST TAKING CONFIDENCE**
 - Test taking drills are provided in the *Topic Tests & Chapter Tests* within each chapter and in all formats—multiple choice, true/false, short answer, essay questions. Check your progress by reviewing the answers and explanations.
 - *Sample midterm & final exams* are cumulative and are very similar to actual exams—pass these tests and you're ready to move on.
- **STUDY SMART**—once you've completed a chapter, use the *Check Your Performance* diagram to identify those areas where you should spend more time.
- **NEED EXTRA HELP?—GO ONLINE!** Look for the icons in the text to direct you to more information on the 11th Hour's Dedicated Web Page.
