

Source Book of Enzymes provides a worldwide listing of commercially available enzymes, offering the widest possible selection of enzyme products for specific applications. This practical reference tool makes the selection of enzymes easy by providing systematic and comparative functional information about each listing.

Features

- Presents an encyclopedic comparison of more than 7,000 commercially available enzymes, restriction endonucleases, DNA methyltransferases and enzyme mixtures, blends, and complexes
- Includes indexes by EC number and enzyme name and synonyms so that readers can quickly locate the enzyme they need
- Features a comprehensive user's guide so that readers can get the most out of the source book with a minimum amount of searching
- Offers a worldwide listing of nearly 100 enzyme suppliers for convenient sources of enzymes
- Explains common applications for each entry
