

Contents

<i>Preface</i>	v
1. Introduction	1
Choice of Propagation Methods	3
Basic Genetical Concepts Concerning Plant Propagation	4
2. Structure of Vascular Plants	12
Cell Structure	13
3. Propagating Structures, Equipments and Media	30
Plant-Propagating Structures and Equipments	30
Media for Propagating and Growing Nursery Plants	38
Sanitation	41
Supplementary Fertilizers	43
Care and Handling of Nursery Plants	43
4. Seed Propagation	45
Advantages and Disadvantages of Seed Propagation	46
Origin and Development of Seeds	47
Germination	57
Seed Dormancy	67
Viability of Seeds	76
Seed Health	86
Seed Testing and Seed Certification	88
Seed Technology	96
Seed Production and Handling	97
Growing Seedlings in the Nursery	102
5. Vegetative Propagation	113
Advantages and Limitations	113
Clone	115
6. Propagation by Apomictic Seedlings	119
Classes of Apomixis	119
7. Propagation by Specialized Vegetative Structures	121
Bulbs	122
Tubers	126
Tuberous Roots and Stems	127
Corms	129
Rhizomes	131
Runners	132

Runners	132
Offsets	132
Suckers	133
8. Propagation on its Own Root System	135
Cuttings	135
Origin of Roots	135
Reasons for Failure of Some Species to Root	138
Factors influencing Rooting of Cuttings	146
Preconditioning Plants to Stimulate Rooting	151
Types of Cuttings	153
Use of Plant Growth-Regulators in Rooting of Cuttings	162
9. Layering	166
Types of Layering	167
10. Propagation on the Root System of Other Plants	173
The Technique	173
Objectives of Grafting and Budding	174
Limits of Grafting and Budding	176
Union Between Stock and Scion	
Graft Incompatibility	181
Stock-Scion Relationship	184
Tools and Accessories Necessary for Grafting and Budding	191
11. Grafting	195
Methods of Grafting	195
12. Budding	213
Methods of Budding	213
Bud Selection and Certification	221
After-care of Budded Plants	222
13. Micropropagation	224
Requirements for Micropropagation	226
Methods of Culturing Plant Tissues and Organs	234
Limitations of Micropropagation	240
14. Propagation Methods of Some Important Plants	241
Fruits and Nuts	241
Medical and Aromatic Plants	251
Vegetables and Ornamental Annuals	252
Ornamental Bulbous Plants	254
House Plants	256
Shrubs and Trees	258
Succulents and Cacti	261
<i>References</i>	264
<i>Glossary</i>	273
<i>Index</i>	281
