

Volume 58

Advances in GENETICS

Serial Editors

Jeffrey C. Hall

Brandeis University, Waltham, Massachusetts, U.S.A.

Jay C. Dunlap

Dartmouth Medical School, Hanover, New Hampshire, U.S.A.

Theodore Friedmann

University of California at San Diego School of Medicine, La Jolla, California, U.S.A.

Veronica van Heyningen

MRC Human Genetics Unit, Western General Hospital, Edinburgh, UK

Advances in Genetics increases its focus on modern human genetics and its relation to medicine with the merger of this long-standing serial with Molecular Genetic Medicine. This merger affirms our commitment to publish important reviews of the broadest interest to geneticists and their colleagues in affiliated disciplines. This volume of **Advances in Genetics** contains articles on:

- Rapidly Evolving *Rab* GTPase Paralogs and Reproductive Isolation in *Drosophila*
- The *Neurospora crassa* Circadian Clock
- Involvement of Homologous Recombination in Carcinogenesis
- Mutational Analysis of the Ribosome
- Application of Genomics to Molecular Breeding of Wheat and Barley

Praise for the Serial

"Outstanding both in variety and in the quality of its contributions."

— NATURE

"The high standards of the Advances series of Academic Press are now almost taken for granted..."

— SCIENCE PROGRESS
