

MICROBIOLOGY

Comes Alive!

Available with *Microbiology: A Human Perspective* are more than 50 animations to harness the visual impact of microbiology processes in motion.

INSTRUCTORS

These animations can be found on the Digital Content Manager CD-ROM. You can import them into classroom presentations or online course materials!

STUDENTS

These animations are available to you on ARIS (Assessment, Review, and Instruction System) at www.mhhe.com/nester5. Since you control the action, these 3-D clips make great review and study tools! Each animation includes 5 questions to test your understanding of the concepts.
