

STUDY AIDS

Student Study Guide

by Linda Sherwood, *Montana State University*
ISBN: 0-07-286485-0

The Student Study Guide provides a variety of problem-solving formats, such as fill-in-the-blank, matching, multiple choice, and true/false. This guide provides students with overviews, objectives, and outlines for all chapters, plus serves as a guide for using the Microbes in Motion III CD-ROM.

Online Learning Center

www.mhhe.com/prscott6

Inside this text is a passcard to success on Prescott's Online Learning Center!

Features include:

- Self-quizzing opportunities including multiple choice, true/false, and labeling questions
- Case studies
- Flash cards and web exercises
- Weblinks to newsworthy articles

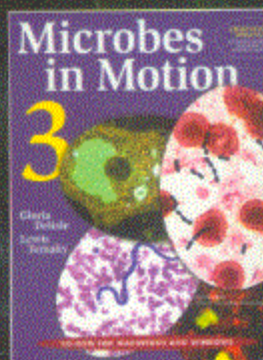

Plus, the Online Learning Center features a **FREE tutorial service** that allows students to email questions to an online consultant and receive an answer within 24 hours!

Microbes in Motion III

by Lewis Tomalty and Gloria Delisle
ISBN: 0-07-233440-1

Interactive CD-ROM allows you to actively explore microbial structure and function. Great for self-study, exam preparation, and classroom presentations. Eighteen books cover topics from microbial genetics to vaccines.

HyperClinic 2 CD-ROM

by Lewis Tomalty and Gloria Delisle
ISBN: 0-07-232312-4

Evaluate realistic case studies that include a patient history and description of signs and symptoms. Allied Health students can analyze the results of physician-ordered clinical tests to reach a diagnosis. Medical students can evaluate a case study scenario and then decide which clinical samples should be taken and which diagnostic test should be run.

More than 200 pathogens are profiled, 105 case studies presented, and 46 diagnostic tests covered.
