

STUDENTS, DO YOU WANT TO GUARANTEE YOUR SUCCESS IN THIS COURSE?

The **Mader: Student Study Guide to accompany *Inquiry into Life*** directly correlates with the text, and each chapter includes objectives, study questions, and a chapter test. Answers to the study questions and the chapter tests are provided to give you immediate feedback. If your bookstore does not stock the *Student Study Guide*, ask them to order ISBN 0-07-242203-3 for you.

INQUIRY INTO LIFE ONLINE LEARNING CENTER

Learning biology can be easy and fun! Located on the Internet, the *Inquiry into Life Online Learning Center* provides dynamic tools, such as study questions, art reviews, labeling exercises, chapter quizzes, case studies, and much more.

INSTRUCTORS, WE CAN MAKE YOUR LIFE EASIER!

Take advantage of the tools and technology products McGraw-Hill provides:

- The **Digital Content Manager** CD-ROM includes all of the illustrations, photographs, and tables from the textbook, PowerPoint® art slides, PowerPoint® lecture outlines, and an Active Art library.
- The **Instructor's Testing and Resource** CD-ROM includes a **Computerized Test Bank**, which enables you to create customized exams, and an **Instructor's Manual**, which contains an extended lecture outline and lecture enrichment ideas.
- McGraw-Hill's **General Biology Digitized Videos** are an exciting new presentation tool for introductory general biology instructors to use in lecture or lab! Licensed from some of the highest-quality life science video producers in the world, these brief video clips on DVD range in length from 15 seconds to two minutes and cover all areas of general biology from cells to ecosystems. Engaging and informative, McGraw-Hill's digitized biology videos will help capture students' interest while illustrating key biological concepts, applications, and processes.
- The **Introductory General Biology Animations** brings the next generation of animation to the classroom. These full-color animations of biological concepts and processes offer total flexibility for you in classroom presentations or online course materials. Designed to be used in your lectures, these full-screen animations feature the option of Spanish audio, pause, rewind, fast-forward, and audio on/off options.
- The **Transparency Set** includes ALL of the line art from the textbook.
