

New! McGraw-Hill Connect™ Microbiology is a web-based assignment and assessment platform that gives students the means to better connect with their coursework, with their instructors, and with the important concepts they will need to know for success now and in the future.

- Instructors can deliver assignments, quizzes, and tests easily online.
- Students can practice important skills at their own pace and their own schedule.

New! Photographic Atlas for Laboratory Applications in Microbiology (0-07-737159-3), prepared by Barry Chess at Pasadena City College, can be packaged with this laboratory manual. This stunning photo atlas contains more than 300 color photos that bring the microbiology laboratory to life. The photo atlas is divided into eight major sections: staining techniques; cultural and biochemical tests; bacterial colonial morphology; bacterial microscopic morphology; fungi; protists; helminths; and hematology and serology. A picture is worth a thousand words, and this is definitely the case with this beautifully prepared atlas. Contact your McGraw-Hill sales representative for additional information and packaging options.
