

Volume 64

Advances in GENETICS

Serial Editors

Jeffrey C. Hall University of Maine, Orono, ME, USA

Jay C. Dunlap Dartmouth Medical School, Hanover, NH, USA

Theodore Friedmann University of California at San Diego, School of Medicine, USA

Advances in Genetics increases its focus on modern genetics and its relation to medicine with the merger of this long-standing serial with **Molecular Genetic Medicine**. This merger affirms our commitment to publish important reviews of the broadest interest to geneticists and their colleagues in affiliated disciplines. This volume of **Advances in Genetics** contains articles on:

- The inspection paradox and whole-genome analysis
- Gene expression studies in mosquitoes
- Phylogeny of Tec Family Kinases: Identification of a Pre-Metazoan Origin of Btk, Bmx, Itk, Tec, Txk and the Btk Regulator SH3BP5
- Insulators
- Tissue-specific Vascular Endothelial Signals and Vector Targeting

Praise for the Serial

"Outstanding both in variety and in the quality of its contributions"

—NATURE

"The highest standards of the Advances series of Academic Press are now almost taken for granted..."

—SCIENCE PROGRESS
