

Volume 68

SOCIO- GENETICS

Serial Editors

Jay C. Dunlap Dartmouth Medical School, Hanover, NH, USA

Theodore Friedmann University of California at San Diego, School of Medicine, USA

Stephen F. Goodwin University of Oxford, Oxford, UK

The field of genetics is rapidly evolving, and new medical breakthroughs are occurring as a result of advances in knowledge gained from genetics research. **Advances in Genetics** continually publishes important, timely reviews from leaders in the field that cover a broad range of topics of interest to geneticists and their colleagues in affiliated disciplines. This volume includes articles on:

- C. elegans: Social interactions in a 'non-social' animal
- Molecular Social Interactions: *Drosophila melanogaster* Seminal Fluid Proteins as a Case Study
- Sleeping Together: Using social interactions to understand the role of sleep in plasticity
- Approaching the genomics of risk-taking behaviour

Praise for *Advances in Genetics*:

"Outstanding both in variety and in the quality of its contributions."

NATURE

"Can be highly recommended to geneticists, and biologists in general...will prove to be of high importance for the development of the science of genetics."
