

Volume 77

Advances in GENETICS

Serial Editors

Stephen F. Goodwin University of Oxford, Oxford, UK

Theodore Friedmann University of California at San Diego, School of Medicine, USA

Jay C. Dunlap The Geisel School of Medicine at Dartmouth, Hanover, NH, USA

The field of genetics is rapidly evolving, and new medical breakthroughs are occurring as a result of advances in knowledge gained from genetics research. **Advances in Genetics** continually publishes important, timely reviews from leaders in the field that cover a broad range of topics of interest to geneticists and their colleagues in affiliated disciplines. This volume includes articles on:

- Social Influences on Circadian Rhythms and Sleep in Insects
- Interplay Between Social Experiences and the Genome: Epigenetic Consequences for Behavior
- One, Two, and Many – A Perspective on What Groups of *Drosophila Melanogaster* Can Tell Us About Social Dynamics
- The Circadian Clock of the Fly: A Neurogenetics Journey Through Time

Praise for **Advances in Genetics**:

"Outstanding both in variety and in the quality of its contributions."

NATURE

"Can be highly recommended to geneticists, and biologists in general...will prove to be of high importance for the development of the science of genetics."
