

Volume 82

Advances in GENETICS

Serial Editors

Theodore Friedmann

University of California at San Diego, School of Medicine, USA

Jay C. Dunlap

Dartmouth Medical School, Hanover, NH, USA

Stephen F. Goodwin

University of Oxford, Oxford, UK

The field of genetics is rapidly evolving, and new medical breakthroughs are occurring as a result of advances in knowledge gained from genetics research. **Advances in Genetics** continually publishes important, timely reviews from leaders in the field that cover a broad range of topics of interest to geneticists and their colleagues in affiliated disciplines. This volume includes articles on:

- The Repair and Signalling Responses to DNA Double Strand Breaks
- Biological activity and biotechnological aspects of locked nucleic acids

Praise for **Advances in Genetics**:

"Outstanding both in variety and in the quality of its contributions."—

NATURE

"Can be highly recommended to geneticists, and biologists in general... will prove to be of high importance for the development of the science of genetics."—
