

Get the most out of your biology course!

The exercises covered in this study guide will help you get the most out of your biology course. The Study Guide is divided into 36 chapters that correspond directly to those in the textbook. Within each chapter you will find activities that allow you to review important concepts covered in the main text.

The following features appear in each chapter: study skills and techniques:

- Basic Chapter Concepts
- NEW! Chapter Summary
- NEW! Word Roots
- NEW! Key Terms
- NEW! Flash Cards
- Self Test
- What's It All About? Essay Section

These features will help you practice the basic concepts in biology, and improve the process of understanding these concepts and applying them to the material you learn.

The hundreds of creative activities and exercises in this guide will help you study more effectively and achieve success in your biology course.
