

The background of the cover is a dark, textured surface. Scattered across it are several interlocking puzzle pieces of various shapes and colors. Each piece contains a white or light-colored illustration of a biological organism or ecosystem. The organisms include birds (owls, swallows, swans, a large bird of prey), insects (beetles, flies, ants, a grasshopper), a rhinoceros, a rabbit, a deer, a turtle, a lizard, a snake, a fish (a large white fish), a whale, a coral reef, a snail, a mushroom, and various plants and flowers. The puzzle pieces are arranged in a way that suggests a larger, complete picture of community ecology.
