

About this book

Written by a professional biologist who is also an experienced writing teacher, this comprehensive guide for students writing in biology, zoology, and botany provides detailed instruction on researching, drafting, revising, and documenting papers, reviews, and other forms of writing.

The fourth edition includes a new focus on audience throughout and expanded discussions on evaluating and using biological literature and organizing and analyzing scientific data. Also included are the most up-to-date CSE documentation guidelines along with new coverage of APA guidelines, revised student writing samples, and new chapter-by-chapter checklists.

Praise for *Writing Papers in the Biological Sciences*

"*Writing Papers in the Biological Sciences* is concise, clear, and well-written. I have my students read it from cover to cover over the course of a semester."

— Jean-Marie Kauth, *Benedictine University*

"A key strength of this book is that it manages to convey, in a wonderfully concise manner, extensive guidance and information that is indispensable to the beginning writer. The advice is complete, clear, and illustrated with many helpful examples."

— Nina C. Zanetta, *Siena College*

"This book should be required reading for all students in the biological sciences."

— William L. Peters, *Florida Agricultural and Mechanical University*
