Advisory Editors: Lynn Hunt, David W. Blight, Bonnie G. Smith,
Natalie Zemon Davis, and Ernest R. May

Praise for Charles Darwin and the Question of Evolution: A Brief History with Documents

"Herbert's volume covers a great deal of terrain with grace and clarity and overall strikes a fine balance between introducing material for first-time readers and pointing toward next-level questions for reflection. It flows beautifully, is written in a scholarly yet conversational tone that students will greatly appreciate, and the scholarship is exemplary."
— Katherine Pandora, *University of Oklahoma*

"The introduction by Herbert is excellent. It prepares students for the readings and puts the material into an overall context. Certainly my students would find it a useful book to have and would have no difficulty reading it."
— Paul Farber, *Oregon State University*

"Herbert's book is first rate. The introduction more than adequately prepares students for the superbly chosen documents that follow."
— James J. Sack, *University of Illinois at Chicago*

About the author

Sandra Herbert (Ph.D., Brandeis University) is Professor Emerita of History at the University of Maryland Baltimore County, a fellow of the American Association for the Advancement of Science, a fellow of the Geological Society of America, and a Research Associate at the Smithsonian Institution's National Museum of Natural History. A scholar of Charles Darwin, Herbert edited *The Red Notebook of Charles Darwin* (1980) and co-edited *Charles Darwin's Notebooks, 1836–1844* (1987). Her book *Charles Darwin: Geologist* (2005) won the Geology Society of America's Mary C. Rabbitt Award, the History of Science Society's Suzanne J. Levinson Book Award, the American Historical Association's George L. Mosse Prize, and the North American Conference on British Studies' Albion Book Prize.
