

Learn biology through engaging stories

Coleen Belk and Virginia Borden Maier have helped students demystify biology for nearly twenty years in the classroom and ten years with their text, ***Biology: Science for Life with Physiology***. In the new **Fourth Edition**, they continue to connect biology to intriguing stories and current issues, such as the case of Andrew Speaker and his involuntary quarantine for a deadly strain of tuberculosis (Chapter 11: An Evolving Enemy). Learning Outcomes, which are new to this edition and integrated within the book and online at MasteringBiology®, guide your reading and allow you to assess your understanding of biology.

A new Chapter 3, "Is It Possible to Supplement Your Way to Better Health? Nutrients and Membrane Transport," offers an engaging storyline and focused coverage on micro- and macro-nutrients, antioxidants, passive and active transport, and exocytosis and endocytosis.

If your course does not cover topics related to physiology, an alternate edition of this book, ***Biology: Science for Life***, is also available.

More Tools to Help You Ace Your Biology Class

MasteringBiology

www.masteringbiology.com

MasteringBiology from Pearson has been designed and refined with a single purpose in mind: to help create that moment of understanding. The Mastering online homework and tutoring system delivers self-paced tutorials that provide individualized coaching, focus on your course objectives, and are responsive to your progress. The Mastering system motivates you to learn outside of class and arrive prepared for lecture.

MasteringBiology with Pearson eText

978-0-321-77425-5 • 0-321-77425-6

This includes all of the features of MasteringBiology in addition to Pearson eText content.

Study Card

978-0-321-78703-3 • 0-321-78703-X

This laminated quick reference Study Card is developed specifically for *Biology: Science for Life*, Fourth Edition and can be value packaged with the book at no additional charge. The Study Card provides a brief, chapter-by-chapter review, including key figures, to help you review the most important topics in biology.
