

Essential Laboratory Skills for **Biosciences**

Mohammed S. Meah, Elizabeth Kebede-Westhead,
School of Health and Bioscience, University of East London, UK

This book has been written to act as a companion during laboratory sessions. It is designed to be simple and gives clear step by step instructions on essential techniques, supported by relevant diagrams. The book includes the use of particular equipment and how to do simple calculations that students come across regularly in laboratory practicals.

Written by experienced lecturers this handy pocket book provides:

- Simple to follow laboratory techniques
- Clear use of diagrams and illustrations to explain techniques, procedures and equipment
- Step by step worked out examples of calculations including concentrations, dilutions and molarity

Suitable for all first year university students, the techniques in the book will also be useful for postgraduate and final year project students and enhance the practical and theoretical knowledge of all those studying bioscience related subjects.

ISBN 978-0-470-68647-8
