

Now clearer, easier to understand and more beautiful to look at . . .

The updated Fourth Edition of this respected text will help you master the concepts of biochemistry and gain new problem-solving skills

Garrett and Grisham's **Biochemistry, Fourth Edition**, and its unique conceptual and organizing framework of *Essential Questions* will guide you through the concepts of chemistry and biology, helping you see the beauty and usefulness of biochemistry all around you.

The Fourth Edition has been updated and improved in so many ways:

- The book's presentation has been streamlined for increased clarity and readability, and to make it more interesting to visual learners.
- More photos, illustrations, and drawings have been added. You'll find over 330 images of prominent proteins and nucleic acids involved with essential biological functions that illustrate and inform the subject matter and were prepared especially for this book.
- Many new end-of-chapter problems have been added to this edition. Serving as meaningful exercises, these problems will help you develop critical problem-solving skills that you'll find useful long after you finish your biochemistry course. Each set of problems concludes with practice questions to help you prepare for standardized exams such as the MCAT.

These resources can help you aim for success in your course

CengageNOW™

Instant Access ISBN-10: 0-495-60645-6 • ISBN-13: 978-0-495-60645-1

This powerful and interactive resource allows you to gauge your own unique study needs—then, it presents a personalized learning plan that helps you focus your study time on the concepts you most need to master. With the program's unique diagnostic quizzes and study plan, you will quickly begin to maximize study time and get one step closer to success! *See the inside front cover for a complete description.*

Study Guide/Student Solutions Manual/Problems Book

David K. Jemiole, Vassar College and Steven M. Theg, University of California, Davis

ISBN-10: 0-495-11460-X • ISBN-13: 978-0-495-11460-4

You'll be much better prepared for in-class quizzes and tests, and you'll gain a true understanding of the concepts with this helpful manual.

Student Lecture Notebook

ISBN-10: 0-495-11461-8 • ISBN-13: 978-0-495-11461-1

The **Student Lecture Notebook** allows you to closely follow along and take notes on your instructor's PowerPoint presentation.
